The University of Tennessee System FY 2005-06 PROPOSED BUDGET OVERVIEW

SYSTEM OVERVIEW

The FY 2006 University of Tennessee system proposed budget totals \$1.4 billion: \$1.0 billion in unrestricted operating funds and \$381.3 million in restricted funds. This budget reflects a 4.8 percent increase over the FY 2005 probable unrestricted operating budget, funded primarily from revenue increases in State Appropriations and Tuition and Fees. Detailed State Appropriations by campus and institute is provided in *Section Two*. The FY 2006 Student Fee Recommendation and supporting schedules are found in *Section Eight*.

The recommended budget focuses on three major areas of emphases: directing available resources to academic initiatives that help students succeed, providing student access through a reasonable student fee recommendation, and building the university's research capacity. Highlights in this year's recommendation are:

- State matching funds of \$2.5 million to attract National Academy-level faculty to the University of Tennessee system. Oak Ridge National Laboratory (ORNL) is providing the matching funds to establish a pool of funds to enable us to recruit eminent research scholars and their support teams in science and engineering.
- Salary increases for faculty and staff. These funds are an important resource in our continuing effort to narrow the salary gap for our faculty and staff. The state's salary policy provides a 1.5% base increase for faculty and a 1.5% pool for distribution to the highest performing faculty. Staff shall receive 3% or \$750, whichever is greater.
- Need-based scholarships at UT Knoxville. The Knoxville campus will offer need-based scholarships to fall 2005 incoming freshmen. The need-based scholarships are offered to students whose families have an adjusted gross income of less than 150% of the poverty level, or \$27,000. The scholarship, when combined with other federal, state, and institutional aid, will cover a student's mandatory costs, which includes the tuition, fees, and room and board without the use of student loans. The campus estimates 690 of the 4,200 incoming freshmen will qualify for this scholarship.
- College of Pharmacy Expansion. The College of Pharmacy is increasing its
 entering class size to 175 students in the fall of 2005 with plans to further
 increase the entering class to 200 students in the fall of 2006. The expansion
 plan includes the development of a satellite campus in Knoxville. The
 expansion of clinical education centers in Nashville, Jackson, Chattanooga,
 and Tri-Cities, is also planned.

- Student Success Centers. UT Knoxville provided funds to enhance and support the campus Student Success Center. UT Knoxville's Center is a partnership between Academic Affairs and Student Affairs, providing a single source of support to help students sort through services and put them together in a way that meets their needs. UT Martin provided funding for a recruiter/advisor position in the Student Success Center to recruit transfer students. The UT Martin Center is part of a \$1.8 million Title III Grant providing additional career counseling and academic support services to incoming freshmen.
- New Center for Global Studies at UT Martin. Increased emphasis on travel study opportunities for students resulted in the establishment of the Center for Global Studies. The Center will house International Programs. In support of travel study opportunities, the campus Student Government Association requested a travel study student activity fee, which is proposed to begin fall 2005 semester.
- Institute for Public Service's Law Enforcement Innovation Center. The Law Enforcement Innovation Center has potential for a high profile "Best in Nation" niche. New grants and contracts for the Center include \$600,000 from a partnership with Louisiana State University to develop homeland security training curriculum; \$585,000 from the Department of Justice to develop a "cold case" crime scene program; and \$105,000 new Project Safe Neighborhoods proposal funded by the U. S. Attorney General.
- Research Initiatives at UT Knoxville. New positions have been added at the Joint Institute for Computational Sciences (JICS) to foster and support research initiatives with Oak Ridge National Laboratory. The computer partnership for high-speed connectivity for complex research with UT-Battelle has been funded.
- New Research Initiative at the Agricultural Experiment Station. Funds have been reallocated to support the Tennessee Biomass Initiative of the Sun Grant Center, one of five such centers established in the United States. The Center's purpose is the development, distribution and implementation of biobased energy technologies for the purpose of enhancing America's national energy security, promoting diversification and environmental sustainability of America's agriculture, and promoting opportunities for economic diversification in America's rural communities.

A system-wide summary of the FY 2006 Budget Recommendation is provided starting on the following page with Revenue Highlights. Supporting budget schedules for the University of Tennessee System, the University of Tennessee, the University of Tennessee at Chattanooga, the University of Tennessee at Martin, and System Administration are found in *Sections Three through Seven*. A new schedule detailing Unrestricted Net Assets by unit is also included in the supporting budget schedules of this year's document.

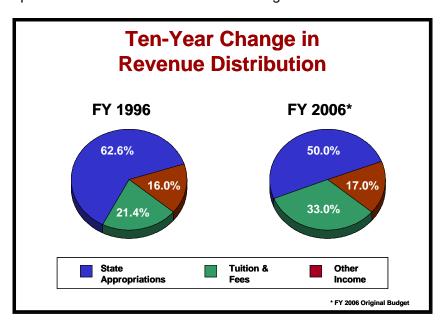

REVENUE HIGHLIGHTS

| REVENUES* | FY 2005 | FY 2006 | CHANGE |
|----------------------|----------|------------|---------------|
| Tuition & Fees | \$ 261.7 | \$ 288.4 | \$ 26.6 10.2% |
| State Appropriations | 430.1 | 437.9 | 7.8 1.8% |
| Other Revenues | 143.5 | 148.8 | 5.4 3.8% |
| Sub-Total E&G | \$ 835.3 | \$ 875.1 | \$ 39.8 4.8% |
| Auxiliaries | 134.4 | 135.5 | 1.0 0.8% |
| Total Revenues | \$ 969.8 | \$ 1,010.6 | \$ 40.8 4.2% |

^{*} Revenues are rounded to millions and may not add due to rounding

The FY 2006 Proposed Budget includes unrestricted revenues totaling \$875.1 million, an increase of \$39.8 million over the FY 2005 Probable Budget and \$73.0 million more than in Actual FY 2004.

State Appropriations continue to decline as a percent of available resources. Ten years ago state appropriations provided 62.6% of available Educational & General (E&G) revenues compared to the 50.0% in the FY 2006 budget recommendation.

State appropriations total \$437.9 million, an increase of \$7.8 million over the probable budget:

| FY 2005 Probable Budget | \$430,149,700 |
|--|---------------|
| Add: FY 2006 Salary Funding | 13,335,900 |
| Add: Annualize FY 2005 Group Insurance | 2,716,800 |
| Less: Non-recurring Bonus | (8,285,400) |
| FY 2006 Proposed Budget | \$437.917.000 |

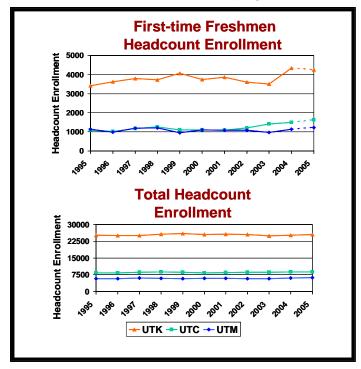

Specifically, these changes include:

- \$13.3 million in state funding for employee salary increases. Effective July 1, staff members with satisfactory performance receive an increase of 3% or \$750, whichever is greater. The 3% salary increase funding for faculty is divided between a 1.5% across-the-board increase and a 1.5% merit pool to be distributed based on merit or equity. The state funded approximately 70 percent of the salary increase for UT Knoxville, UT Chattanooga, and UT Martin. All other university campuses and units received full funding.
- \$2.7 million to fund fully the employee group insurance nine percent increase effective January 1, 2005. The state provided six months of funding in FY 2005 and this year's allocation provides the unfunded annualized need. We anticipate additional state allocations later in the year to fund an expected January 2006 group insurance increase.
- \$8.3 million reduction to exclude the one-time funding for the bonus employees received on October 1, 2004.

The \$26.6 million increase in **Tuition and Fee** revenues is largely from the recommended student fee increase. The estimates also include an expected enrollment increase at UT Knoxville of 428 students and a \$500,000 increase in executive MBA program revenues

due to increased enrollment and rate increases. The other campuses are projecting flat enrollments for budgetary purposes.

The \$3.4 million increase in **Grants** and Contracts is at the Health Science Center, which shows an increase in facilities and administration (F&A) recoveries from increased grant and contract Also noteworthy is the activities. Institute of Public Service's anticipated 27.4% increase, or \$208,157. in grants and contracts from new federally funded projects in the Law Enforcement Innovation Center and the Center for Industrial Services and a renegotiated Solid Waste Consulting contract with Tennessee Department of Environment and Conservation.

Adjustments to **Sales and Services** resulted in a \$1.4 million increase. Increases in clinical and diagnostic services in the College of Veterinary Medicine of \$535,000, \$455,413 at the Health Science Center's Genetics Lab of the Memorial Research Center, and the \$572,475 increase in clinic income at the Family Practice Knoxville and Jackson locations contribute to this change. These increases are offset by the \$110,949 decrease at the Agricultural Experiment Station from an anticipated reduction in revenue for the Research and

Education Center at Martin and the \$146,122 reduction in Pediatrics at the College of Medicine due to reduced services.

Conference revenues provide the majority of **Other Sources** revenues that assist in funding campus and institute activities. Also included are miscellaneous rentals and sales, gifts from private organizations or individuals, licensing and affinity card income, and interest income. The \$288,637, or 0.9 percent, decrease in Other Sources of revenues includes a \$437,810 decrease at UT Knoxville from an expected decrease in conference activity. The Municipal Technical Advisory Service anticipates a \$140,516 increase in local appropriations (sales tax revenues) and an additional \$105,009 for producing city codes and providing municipal training.

Auxiliary Enterprises operations show an overall increase of \$1.0 million that includes the July 1 salary increase, housing and meal plan rate increases, anticipated increases in enrollment at UT Knoxville that benefit food services and bookstore operations, and the occupancy of the newly-constructed University Village Apartments at UT Martin. The overall \$1.6 million reduction in Athletics revenue stems from one less home football game scheduled this fall resulting in a \$3.0 million reduction at UT Knoxville. UT Knoxville Athletics outsourced Souvenirs in FY 2005 resulting in a \$1.2 million reduction in revenues and there are corresponding reductions in expenditures. Offsetting the Athletics reductions are increases in conference proceeds of \$700,000; gifts of \$990,000; basketball ticket sales of \$300,000, and other miscellaneous sources.

EXPENDITURE HIGHLIGHTS

| EXPENDITURES | F | Y 2005 | I | FY 2006 | CHANG | E |
|-----------------------------|----|--------|----|---------|------------|--------|
| Instruction | \$ | 387.7 | \$ | 404.2 | \$ 16.6 | 4.3% |
| Research | | 69.0 | | 52.9 | (16.1) | -23.3% |
| Public Service | | 56.8 | | 57.1 | 0.2 | 0.4% |
| Academic Support | | 94.9 | | 90.3 | (4.6) | -4.8% |
| Student Services | | 56.3 | | 57.3 | 1.0 | 1.7% |
| Institutional Support | | 85.9 | | 87.0 | 1.2 | 1.3% |
| Operation & Maint. of Plant | | 81.1 | | 83.7 | 2.6 | 3.2% |
| Scholarships & Fellowships | | 42.5 | | 49.4 | 7.0 | 16.4% |
| Sub-Total E&G | \$ | 874.1 | \$ | 881.9 | \$ 7.9 | 0.9% |
| Mandatory Transfers | | 4.9 | | 6.5 | 1.7 | 33.9% |
| Non-Mandatory Transfers | | (33.4) | | (13.1) | 20.3 | -60.9% |
| Total E&G | \$ | 845.5 | \$ | 875.4 | \$ 29.9 | 3.5% |
| Auxiliaries | \$ | 134.5 | \$ | 135.6 | \$ 1.1 | 0.8% |
| Total Expenditures | \$ | 980.0 | \$ | 1,011.0 | \$ 31.0 | 3.2% |

^{*} Expenditures are rounded to millions and may not add due to rounding

The proposed FY 2006 **E&G Expenditures and Transfers** total \$875.4 million, a \$29.9 million, or 3.5 percent, increase over the FY 2005 Probable Budget. The significant increases in FY 2006 budgeted expenditures and transfers are the addition of \$25.8 million in student fee revenue increases, \$13.3 million funding for the July 1 faculty and staff salary increases, and \$2.7 million to fund fully the January 1, 2005 employee group insurance

increase. These increases are offset by the one-time bonus provided to employees in FY 2005 totaling \$8.3 million and carryover funds and one-time initiatives budgeted in FY 2005.

The \$16.1 million reduction in **Research Expenditures** is from the carryover and one-time funds included in the FY 2005 Probable Budget for the Research Centers of Excellence and other initiatives. In addition, funds budgeted in Instruction for the proposed budget will be reallocated to the Research function in the revised budget once the faculty performing the research is known. The revised budget will also include the allocation of committed, unspent research funds at the close of FY 2005.

Mandatory Transfers increased \$1.7 million because of the addition of the Health Science Center's \$1.5 million debt service for the Basic Clinical Sciences Building and the \$209,800 increase in debt service for improvements in the Madison Avenue Building. These additions are offset by debt retirements for the 66 Pauline Building and the Kirby Chevrolet Property totaling \$347,000. Also included is a \$135,000 increase in debt service at UT Knoxville to fund the E&G portion of the 11th Street Parking Garage debt service.

The \$20.3 million increase in **Non-mandatory Transfers** is primarily due to the FY 2005 carryover and one-time initiative funds transferred in and rebudgeted in expenditures.

Other significant budgetary changes include:

- **Instruction:** UT Martin used \$450,440 of new student fee revenues to add five new faculty positions and to provide increases to operating funds for programs which experienced credit hour production increases in FY 2005.
- **Instruction:** The UT Health Science Center increased funding for Dentistry programs by \$512,833. \$335,280 of the increase went to the Restorative Dentistry program to strengthen the faculty/student ratio.
- **Public Service:** Municipal Technical Advisory Service's additional revenues from local appropriations and fees will provide \$235,000 for expanded programs in training, benchmarking, and fire safety.
- Student Services: \$558,120 of UT Chattanooga's \$800,000 anticipated increase in Athletics fee revenue to support Title IX initiatives is budgeted in Student Services programs and activities. The increase in Student Services also includes UT Knoxville's and UT Martin's allocations to support campus Student Success Centers, \$50,000 and \$38,000 respectively.
- Scholarships and Fellowships: The \$7.0 million increase includes \$5.8 million in scholarships and fellowships funded by the student fee increase and UT Knoxville's \$1.0 million increase to fund part of the second year cost of the scholarship program for in-state students with a 26-29 ACT score. UT Chattanooga distributed \$241,880 of the anticipated increase in Athletics fee revenue to support grants and subsidies for students participating in women's athletic programs.

Provided on the following pages are the budget highlights for the University of Tennessee (campuses, institutes, and units); the University of Tennessee at Chattanooga, the University of Tennessee at Martin; and the University of Tennessee System Administration:

CAMPUSES AND INSTITUTES HIGHLIGHTS

The University of Tennessee

As the state's flagship comprehensive research institution, the University of Tennessee's mission is to:

- Advance the community of learning by engaging in scientific research, humanistic scholarship, and artistic creation;
- Provide a high quality educational experience to undergraduate students in a diverse learning environment;
- Prepare the next generations of skilled and ethical professionals and promote a campus environment that welcomes and honors women and men of all races, creeds, and cultures;
- Conduct research, teaching, and outreach to improve human and animal medicine and health:
- Contribute to improving the quality of life, increasing agricultural productivity, protecting the environment, promoting the well-being of families, and conserving natural resources;
- Offer a wide variety of off-campus educational and training programs, including the use of information technologies, to individuals and groups;
- Partner with communities to provide educational, technical and cultural support to increase the livability of those communities; and
- Partner with industry and government to improve the quality of the workplace and to serve as an engine for economic and cultural development.

Proposed budget highlights and their status for each unit are presented below:

KNOXVILLE

The University of Tennessee, Knoxville, is the state's flagship research institution, a campus of choice for outstanding undergraduates, and a premier graduate institution. As a land-grant university, it is committed to excellence in learning, scholarship, and engagement with society.

FY 2006 funding priorities include:

- \$2.2 million institution to fund fully the July 1 salary increase. A highly qualified, well-compensated support staff working collaboratively with top-notch faculty is crucial if the university is to sustain its national and international prominence.
- \$6.9 million increase in fixed costs for utilities, contractual services, student system hardware upgrade, and library serials acquisitions.
- \$678,000 for new, need-based scholarships to the students whose families have an adjusted gross income less than 150% of the poverty level.

- \$1.0 million to support the second year of the four-year University Scholarship, which provides a scholarship to in-state students with a 26 29 ACT score, in an effort to enroll the best and brightest students in the state.
- \$1.4 million for hires in the colleges and supporting units to meet growing enrollment needs to retain and enhance the quality education offered to the larger size undergraduate classes.
- \$300,000 for the SACS Accreditation Quality Enhancement Plan (QEP), which
 is a framework for boosting UT's awareness of the richness of cultures here in
 Knoxville, across the United States, and around the world.
- \$384,000 for the Joint Institute for Computational Sciences (JICS) hires to foster and support joint research initiatives with Oak Ridge National Laboratory and \$455,000 to fund the computer partnership for high-speed connectivity for complex research with UT-Battelle.
- Continue Housing's 10-year renovation plan with the following projects planned for FY 2006:
 - a. Apartment Residence Hall fire suppression system and roof replacement.
 - b. Clement Hall fire suppression system, HVAC and electrical upgrades, and new furniture.
 - c. Massey Hall fire suppression system and elevator maintenance.

SPACE INSTITUTE

The UT Space Institute, located in Tullahoma, serves the region, state and beyond through interdisciplinary research, technology transfer, and graduate education in selected areas of engineering and sciences. Focus research areas include propulsion, hypersonics, clean energy/transportation, biophysics, computational modeling and simulation in addition to other areas of aeronautics and space. UTSI has active cooperative relationships with governmental facilities such as the Arnold Engineering Development Center and Oak Ridge National Laboratory and other regional universities.

In accordance with the "Report and Revised Plan – The University of Tennessee Space Institute" submitted by Dr. Petersen to the State Legislature, UTSI has established the following FY 2006 funding priorities:

- Additional funds from student fees are dedicated to the instructional program of UTSI to support the goals of having innovative interdisciplinary Doctoral programs in materials science engineering and aerospace engineering; to promote distance education for the existing programs at UTSI; and to promote the use of distance courses for other campuses and universities.
- Increase restricted research activity to generate additional direct and indirect cost recoveries. As these funds are realized they will be used to support the infrastructure of UTSI, as well as cover direct contract charges. Additional students may be supported by grants and contracts as well as additional

research team members. As faculty members become more engaged and charge their effort directly to grants and contracts the funds previously used to support these faculty will become available to reinvest in other parts of the academic and research programs at the UTSI.

HEALTH SCIENCE CENTER

The Health Science Center aims to improve human health through education, research, patient care, and public service. The Memphis campus includes colleges with disciplines in Allied Health, Graduate Health Sciences, Health Science Engineering, Dentistry, Medicine, Nursing, and Pharmacy. Patient care, professional education, and research also are carried out at hospitals and clinical sites across Tennessee. Endowed professorships, Research Centers of Excellence, and continuing relationships with Memphis-area health care facilities like St. Jude Children's Research Hospital ensure that both basic science and applied clinical research stay focused on contemporary health topics. Non-clinical healthcare policy studies and related public health issues are also important campus activities.

Maintaining academic programs at the present level of quality by reallocating shrinking resources is the Health Science Center's is a priority this year. The FY 2006 budget provides:

- \$1,542,300 in debt service is added for the new \$25 million Basic Clinical Sciences Building, which is funded from increased facilities and administration (F & A) Income. The construction began in August 2004 and the building is expected to be completed in late 2006 or early 2007.
- Increases in utilities funding and support for chemical and biological safety, IRB, and clinical trials compliance support, along with the F & A Income funding these initiatives.
- Faculty has been added to the Restorative Dentistry Program of the College of Dentistry. The additional faculty will strengthen the faculty/student ratio for more intense, supervised, hands-on training.
- The College of Pharmacy is expanding throughout Tennessee to establish satellite facilities in Knoxville and Nashville. This expansion is expected to increase enrollment in the program for fall 2006. Class size has been approved to increase from 475 in FY 2005 to 550 in FY 2006.
- The new Bachelor of Science program in the College of Nursing was developed in partnership with the Methodist University Hospital System. More than 110 students are expected to enroll in the new program starting in July 2005.
- Reallocation of funds from Psychiatry were used to support Ophthalmology's new Eye Institute services, Pathology initiatives, rebuilding of the Obstetrics and Gynecology program, and Department of Medicine enhancements.

• Increased clinic activity at the Family Medicine's St. Francis and Jackson Clinics is reflected in an increase in Sales and Service Income of \$551,500, with related expenses reflected in the Instruction function.

INSTITUTE OF AGRICULTURE

The Institute of Agriculture provides instruction, research, extension, and veterinary clinical services to serve the needs of students, clients, farmers, families and other citizens in Tennessee and around the world. Undergraduate, graduate and professional classroom instruction takes place in Knoxville in the facilities of the College of Agricultural Sciences and Natural Resources and the College of Veterinary Medicine. Veterinary clinical services are offered in the Veterinary Teaching Hospital in Knoxville and in selected counties throughout Tennessee. UT Extension services are offered in every Tennessee county. Research is conducted at 11 Research and Education Centers spread across the state.

Agricultural Experiment Station

The Agricultural Experiment Station operates in a continual mode of reallocating funds to higher priority areas. This is accomplished by strategically evaluating faculty retirement and resignations and taking a critical look at the research support structure. Five areas of excellence have been identified into which funds will be reallocated or protected from reductions. Three of these areas: Biomass Conversion, Agricultural and Natural Resource Policy, and Forest Product Development are receiving significant increases in grant and contract funding, allowing the Experiment Station to leverage its own funds more effectively.

FY 2006 funding priorities include the following initiatives:

- \$380,000 is reallocated to support two FTE faculty positions and associated startup cost in the Tennessee Biomass Initiative/Sun Grant Center, one of five such centers established in the United States. The Sun Grant Center's purpose is the development, distribution and implementation of bio-based energy technologies for the purpose of enhancing America's national energy security, promoting diversification and environmental sustainability of America's agriculture, and promoting opportunities for economic diversification in America's rural communities.
- \$140,000 is reallocated to support one new faculty position and associated startup in the Natural Resource Policy Center. The Center's research focus is the analysis of federal and state policies impacting the utilization of Tennessee's natural resource base to aid policy makers in complex deliberations.
- \$329,000 is reallocated to fund the new Alternative Cropping Systems initiative. The funding supports one new faculty position and associated support personnel, and operating costs. Also included is \$100,000 for a research greenhouse. This research is directed at utilizing land and greenhouses that have traditionally been dedicated to tobacco production. The funding for this initiative is expected to be phased out over the next six years as grants and contracts take over the funding for the program.

UT Extension

Demographic data for the State of Tennessee, combined with state and local needs assessments, have resulted in the planned development of nine Extension programs of excellence. Each program will include educational learning objectives, curriculum to meet those objectives, and standardized evaluation tools to measure results and impacts. UT Extension faculty and agents will redirect their time and efforts to these priorities, reducing or eliminating their efforts in programs that are less significant in providing economic, environmental, and social benefits to Tennessee communities. Previous priority programs that have been completed will also be discontinued, and priorities and resources targeted to these former priorities will be redirected as well. FY 2006 funding priorities include:

- The Master Beef Producer program reflects a redirection of resources formerly devoted to the Improved Forages initiative. This program is an intensive educational effort designed to improve feeder cattle production and marketing.
- The Crop Technologies program represents a redirection of effort associated with the Management and Marketing Priority Program. Grain production is a significant source of income for Tennessee farmers and new crop technologies to improve profitability and efficiency are being introduced at a rapid pace, making it difficult for producers to remain competitive in a global market.
- Improving Income in Rural Communities program is the result of a new partnership with the Tennessee Farm Bureau. Reduced emphasis on economic development programs such as Managing the Modern Business also provide redirected resources for this program of excellence.

The above-mentioned examples are from agriculture, natural resources and resource development programming. Programs in family and consumer sciences and 4-H youth development are being redirected using a similar approach. We have no new funds. We are simply redirecting our existing staff and faculty toward high-priority needs of the state that will enhance economic development and quality-of-life issues.

College of Veterinary Medicine

In keeping with the Strategic Plan, "Retooling for the 21st Century," the UT College of Veterinary Medicine (UTCVM) is retooling to provide better training of veterinarians and bio-medical scientists, more cutting edge research, and better quality medical care for patients. Funding initiatives included for FY 2006 are:

- Additional funding from the student fee increase will support faculty promotions, reinstate funding that was lost due to a drop in anticipated F&A income for FY 2005, and provide funding for new recurring costs, including Institutional Animal Care and Use Committee (IACUC)
- Funds from clinical and diagnostic services are expected to increase \$535,833 in FY 2006 from increased activity and fee increases. Increased revenues will pay the interest on the commercial paper used to finance the much needed expansion of the W. W. Armistead Veterinary Teaching Hospital. Once the building is constructed these funds will go toward debt service payments.

 Research funds are expected to decrease \$359,201 in FY 2006 due to a change in departmental philosophy to requiring research salary savings to be spent in the year they are earned and the delay of a Department of Energy contract, which started in December instead of July 2004.

INSTITUTE FOR PUBLIC SERVICE (IPS, MTAS, CTAS)

The Institute for Public Service serves Tennesseans by linking university expertise with community and workplace needs. The institute's primary goals and initiatives support economic development throughout the state by helping increase quality, improve revenues, reduce costs, and create jobs. FY 2006 funding priorities include:

- Increasing faculty funding to conduct research in support of public service programs in economic development, manufacturing research and development, and program evaluation.
- Building upon successful programs with state government (Tennessee Government Executive Institute and Tennessee Government Management Institute) and continue the new leadership development effort with the Tennessee Department of Transportation.
- Using growth in local appropriations, fees, and endowment earnings to fund enhanced programs in fire safety, benchmarking, training, budgeting, and IT consulting for local governments.
- Continuing development of online training programs for local government officials.
- Enhancing the crime scene investigation training program (National Forensic Academy) and expanding its coverage.
- Establishing a pilot program with several Oak Ridge organizations to bring additional federal research funding to businesses in Tennessee (the SBIR Proposal Center).

UNIVERSITY SUPPORT

University Support's mission is to facilitate the overall educational mission of the University of Tennessee by providing the highest level of central services in the areas of Information Technology and Alumni and Development at the lowest possible cost through collaboration of resources across the state. Key funding initiatives for FY 2006 include:

- The Office of Information Technology (OIT) will implement a statewide e-mail and collaboration solution at its campuses and institutes, allowing for enhanced communication, streamlined operations, and standardization.
- OIT will continue major program priorities including the upgrade of Knoxville's student information system, research support services, security policy development, HIPAA remediation at the Health Science Center and Knoxville

campuses, and implementation of a project management system that will allow for better resource tracking and allocation.

 Alumni and Development continues to enhance its alumni and development information system (ANDI) and will complete a major upgrade during the next year.

The University of Tennessee at Chattanooga

The University of Tennessee at Chattanooga serves as a national model of an engaged metropolitan university whose faculty, staff, and students, in collaboration with external partners, employ the intellectual resources of the liberal arts and professional programs to enrich the lives of those we serve. The university defines its land-grant mission through people, partnerships, and performance.

The following budgeting priorities for FY 2006 were established in support of this mission and are in keeping with established strategic initiatives:

- \$520,000 was allocated to partially fund the faculty cost of the Computational Engineering Doctoral Program, which helps to prepare graduates in this significant emerging technology in computer simulations. The cost during the initial phase of this program was funded from the Lupton Renaissance funds. The Lupton funds will continue to provide one-half of the funding for FY 2006, with the university funding the total cost in FY 2007. These faculty members will continue to receive partial funding each year from sponsored projects in the Sim Center.
- \$550,000 has been allocated to provide instruction in general education courses. These courses have been taught primarily by non-tenured faculty on one-year appointments paid by gift funds.
- Computer Applications programs, previously funded as part of the Center of Excellence for Computer Applications with restricted state funds, are funded at \$505,000. This funding will support faculty and instructional activities for computer science majors, campus information technology security issues, and ongoing technology training for faculty in classroom delivery of instruction.
- Athletics Title IX issues are addressed by an \$800,000 increase in student fees for Athletics. These funds will support the new women's crew program, current women's sports activities, and additional scholarship funds for the students participating in women's sports.
- \$430,286 in recurring funds and \$369,714 in one-time funds have been allocated to support the operation cost of academic units. The operational costs have been reduced over the past several years due to budget reductions and the costs have continued to increase beyond the control of the academic units. In addition, library funding was increased \$50,000 for new acquisitions.
- \$350,000 was allocated to fund expected increases in utilities costs.

- \$44,000 in additional funding was allocated to the Chancellor's and Provost's scholarship funds due to the high number of qualified applicants in the current year. These scholarships represent Tennessee's brightest and best students.
- Auxiliary food services will receive \$175,000, representing the first full year's commission on food and catering sales.

The University of Tennessee at Martin

The primary purpose of the University of Tennessee at Martin is to provide a quality undergraduate education in a traditional collegiate atmosphere. In addition, the graduate and distributed learning programs meet lifelong educational needs for all seeking knowledge. Appropriate technologies enhance teaching and expand knowledge by supporting research, scholarship, and creative endeavors. The university is committed to public service and applied research efforts to enhance the economic, educational, aesthetic, and cultural life of the region.

The following FY 2006 funding priorities are in keeping with UT Martin's Three-Year Strategic Plan (2006-2008) and are supported by student fee increases and funding reallocations:

- Five faculty positions were added in the Departments of Health and Human Performance, Biology, English, and Mathematics and Statistics, all of which experienced credit hour production increases this year, for a total cost of \$299,940.
- \$150,000 was added to academic operating budgets, including some permanent funding for major equipment purchases.
- Three new positions were added to Institutional Support for a total cost of \$113,000. In response to Dr. Petersen's training initiative, a staff position was added in Human Resources. Two positions, a clerical position and a professional position, were added to the Development Office to support increased efforts in private fundraising.
- In the Student Success Center, a recruiter position was added to actively pursue transfer students.
- The College Library's budget was increased by \$35,000 for library inflation and other fixed costs.
- Increased emphasis on travel study opportunities for students resulted in the
 establishment of the Center for Global Studies as a part of Academic Affairs.
 The Center will house International Programs' staff and the travel study efforts.
 International Programs was formerly a part of the Division of Student Affairs. In
 support of travel study opportunities, the campus Student Government
 Association requested a travel study student activity fee, which is proposed to
 begin in fall 2005.

• The most significant change in the auxiliary budget is the addition of the University Village Apartments. Partial occupancy is expected this fall and full occupancy is expected for spring 2006 semester. In addition, the University will begin Phase II of student housing renovation, which involves the demolition of McCord Hall and building a new dormitory in its location.

The University of Tennessee System Administration

System Administration enhances the ability of University of Tennessee campuses and institutes to collaborate and to streamline administrative operations through the consolidation of business processes, elimination of duplicative services, and improvement of core services supporting of the university's mission.

Key funding initiatives for FY 2006 include:

- Supporting a state relations office that will work with state lawmakers during the legislative session, work with local communities, and build vital relationships with state agencies.
- Merging the mail services and graphic arts service centers to provide more streamlined operations and enhance service delivery for the university community.
- Allocating \$2.5 million in state appropriations to enhance research initiatives with Oak Ridge. Matched with an equal amount from the Oak Ridge National Laboratory, these funds will be strategically used to strengthen research collaboration across the university system and the lab.
- Continuing the expansion of our ERP system's functionality, including the
 creation of additional e-forms that eliminate paper and expedite internal
 processes and the implementation of a human resources recruitment module.
 Campuses will also begin to be trained and use the Business Warehouse (BW)
 system for trend analysis and reporting.
- Filling the key positions of Chief Financial Officer, Vice President for Research, and Vice President for Development.

SENIOR-LEVEL ADMINISTRATIVE HOUSING BUDGETS

Current university policy FI 630, Housing for Senior-Level Administrators, requires the Board of Trustees approval before any renovation, major maintenance, or grounds project for university-owned or –leased housing begins and before any furnishings or fixtures are purchased for the public areas. Recommended changes to the Housing for Senior-Level Administrators policy, before you for consideration at this meeting, requires the proposed budget to be presented to the Board of Trustees for approval in June of each year. The information provided below provides compliance with both the old and proposed policies.

The FY 2006 Proposed Budget recommends on-going operations and maintenance funds for the three residences owned by the university (Knoxville, Martin, and Memphis) and for the leased residence in Chattanooga. In addition to normal operating costs, the following projects are recommended for funding:

<u>Chattanooga:</u> The FY 2006 state capital maintenance budget includes \$120,000 to fund a roof replacement for the 619 West Brow property. Also recommended for approval is the painting of selected interior areas and the installation of several functional bookcases in an existing office area. Gift funds are available to fund for these two projects with a total estimated cost of \$10,000.

Knoxville: The FY 2006 budget includes funds to widen the front driveway to adequately accommodate vehicular traffic. The current driveway is not wide enough to handle normal flow of traffic which results in damage to the grounds. This preventive maintenance project alleviates the wear and tear on the lighting and irrigation system. The budget also includes \$5,000 to repair the non-working fireplace in the dining room, assuming the existing chimney structure is sound. If upon inspection the cost is determined unrealistic, then the fireplace shall remain in its current state. Several miscellaneous projects, including repair of windows in the main house and the boat house, countertop maintenance, and miscellaneous other items that become known during the year are also funded.

A major ground project is also recommended for your consideration. Included in the recommended budget is \$42,500 in one-time funding to develop a service path to access the backyard and existing river front facilities. Future phases would include plantings, which would be donated, some irrigation support, and bank stabilization.

<u>Health Science Center:</u> The FY 2006 recommended budget includes \$105,000 in gift funds raised for furnishings, grounds refurbishment, and potential renovations. The specific needs are not known since the university is planning to sell the current residence and acquire a home closer to the campus. The budget reflects the total available gifts so the desired expenses are possible with the proper approvals.

SPECIAL INITIATIVES

The FY 2006 Proposed Budget proposes the use of the Hospital Proceeds from the lease/transfer of the UT Memorial Hospital to University Health Systems (UHS) for two special initiatives. Your favorable consideration of the following items is requested:

Health Science Center Chancellor's Residence: The university is preparing to sell the current Chancellor's residence plans to acquire a new residence more suitable for handling functions required of the Chancellor and located closer to campus. The source of funds for the purchase is the proceeds from the sale of the current residence with any difference in cost coming from gifts. The timing of the sale of the existing residence and the purchase of a new residence is such that we need to acquire suitable housing arrangements for the new chancellor before the sale of the old home can occur. The temporary use of Hospital Proceeds to effect the

acquisition of housing is requested. If Hospital Proceeds are used, the campus shall reimburse any distribution made from the account in its entirety from the proceeds for the sale of the old home and/or gift funds as may be required. The Hospital Proceeds account shall be reimbursed no later than June 30, 2006.

<u>Bowld Hospital Closing:</u> On June 23, 2004, the Board of Trustees Finance Committee received a status report from Mr. Emerson Fly, then interim Executive Vice President and Chief Financial Officer, on the transfer of the Bowld Hospital to Methodist Hospital. At the time of the transfer, it was the university's belief that the collections of outstanding accounts receivables would provide sufficient cash flow to cover the hospital's accumulated operating deficit, which is not the case.

At the June 2004 meeting, Mr. Fly also believed the extent of the Bowld Hospital's operating deficit would be known by October 2004 so the Board of Trustees could take appropriate action at that time to address the deficit situation. The Health Science Center, however, continued to work diligently to collect the outstanding account receivables and sell moveable equipment in an effort to reduce the operating deficit. Anticipating that the accounts will be closed and reconciled at the end of FY 2005, we are proposing the use of Hospital Proceeds to fund the deficit balance in an amount not to exceed \$7.0 million. Furthermore, any future revenues generated from the collection of accounts receivable still outstanding and from any other any revenues resulting from the settlement of the Bowld Hospital operations shall be used to reimburse the Hospital Proceeds account in an amount not to exceed the funds used.

FY 2006 BUDGET RECOMMENDATION

The FY 2006 Educational and General (E&G) proposed budgets are balanced and within available resources as are the budgets for Auxiliary Enterprises. The Proposed Budget complies with all applicable policies and guidelines. The following action by the Board of Trustees is recommended:

- The FY 2006 Proposed Budget be approved with the understanding that should the General Assembly or the Department of Finance and Administration alter the FY 2006 appropriations or should changes in estimated resources require, the budgets shall be modified accordingly so expenditures will not exceed available resources.
- 2. The proposed fee and tuition schedules be adopted for FY 2005-2006.
- 3. An allocation not to exceed \$7.0 million from the Hospital Proceeds account be made available to settle the operating deficit of the Bowld Hospital subject to the condition that any future collection of accounts receivable or other related resources associated with the Bowld Hospital operation be first used to reimburse the Hospital Proceeds account to the extent of the amount provided for this purpose.

- 4. A temporary allocation from the Hospital Proceeds be made available to effect the acquisition of a new Chancellor's residence pending the sale of the existing residence subject to the following conditions: (1) the campus shall reimburse any distribution made from the Hospital Proceeds account in its entirety with the proceeds from the sale of the old residence and/or gift funds as may be required; and (2) the Hospital Proceeds account shall be reimbursed no later than June 30, 2006, regardless of whether the old residence has been sold by that date.
- 5. The proposed budgets for the President's and Chancellors' residences be adopted as presented.
- 6. The Board of Trustees authorizes the administration to allocate salary increase funds in accordance with the FY 2006 Appropriations Act language. A copy of the plan filed with the appropriate legislative bodies shall be provided to the Executive and Compensation Committee and the Finance and Administration Committee. Furthermore, any additional general salary increases that exceed the July 2005 Salary Plan may only be granted upon approval by the Board of Trustees in accordance with language contained in the FY 2006 Appropriations Act.
- 7. Allow any remaining balance of Net Assets to be considered as a reserve for contingencies to be used for:
 - a. Employing additional staff where enrollments and reorganization requirements warrant,
 - b. Modifying departmental operating budgets where changing conditions during the year require funding adjustments,
 - c. Funding to make salary adjustments for personnel as may be necessary during the year in keeping with state and university salary guidelines, and
 - d. Improving physical facilities for academic and research departments as opportunities arise.

FY 2006 State Appropriations Summary

FY 2006 BUDGETED PROJECT ADDITIONS

Gift funds raised for furnishings, grounds refurbishment, and potential renovations. Because it is unknown what is needed and when funds might be expended, the full amount of gift funds available are included in the FY 2006 Proposed Budget.

\$105,000

THE UNIVERSITY OF TENNESSEE SYSTEM FY 2006 STUDENT FEE RECOMMENDATION

OVERVIEW

The FY 2006 student fee recommendations presented to you for consideration weigh student affordability and access concerns against the cost to provide students the quality educational experience expected from the University of Tennessee campuses. Continuing to provide students with the best education possible at a reasonable cost is a priority.

The university has two major funding sources: state appropriations and student fees. The FY 2006 appropriations bill provides needed salary increases, although only partial funding is provided for Chattanooga, Knoxville, and Martin campuses. We also have additional state funds to support rising staff benefits cost and to assist in expanding our research capabilities. There are no additional funds provided for inflationary increases in operating cost, a trend that continues since FY 2001.

Given the lack of growth in state appropriations to share in funding fixed cost increases, we again look toward student fee revenues as this year's primary source for operating funds. We do not, however, do so before considering alternative revenue sources and reallocations. Even with these efforts, we are unable to fund base budget inflationary growth within existing revenues. The FY 2006 recommended fee increase funds our fixed cost increases while keeping students fees at a reasonable level.

STUDENT FEE RECOMMENDATION

The University of Tennessee's campuses are mission distinctive. Each offers a unique opportunity for our state's students, ranging from a mainly undergraduate focus at our Martin campus to an extensive array of medical programs in Memphis. The needs of each campus vary significantly as does their financial requirements and enrollment strategies. This year's fee recommendation considers the needs of each campus independently.

The recommended fee increases are at or below the Tennessee Higher Education Commission's (THEC) recommended maximum fee increases for in-state students. THEC did not recommend out-of-state fees this year because of proposed changes in the funding formula model, which allows the two systems to make strategic recommendations that consider geographical and market issues.

Detailed student fee schedules are included in the FY 2006 Proposed Budget Document behind the Student Fee tab. These recommended fee increases include adjustments to both the maintenance fees and the specialized campus fees students pay. We recommend approval of the following proposed student fee increases:

THE UNIVERSITY OF TENNESSEE MAINTENANCE FEES AND TUITION FY 2006 RECOMMENDED PERCENT INCREASE

| | ı | RECOMMENI | DATIONS |
|--|----------|--------------|----------------|
| | THEC | UNIVERSITY C | F TENNESSEE |
| STUDENT FEE | In-State | In-State | Out-of-State * |
| Chattanooga - Undergraduate and Graduate | ≤ 12.0% | 9.3% | 9.3% |
| Knoxville – Undergraduate and Graduate | ≤ 15.0% | 13.0% | 13.0% |
| Martin – Undergraduate and Graduate | ≤ 12.0% | 9.7% | 9.7% |
| New College | ≤ 12.0% | 9.7% | 9.7% |
| College of Law | ≤ 12.0% | 13.0% | 13.0% |
| Space Institute | ≤ 15.0% | 13.0% | 13.0% |
| Health Science Center | | | |
| College of Medicine | | | |
| First-year Students | 3.0% | 3.0% | 3.0% |
| Returning Students | 0.0% | 0.0% | 0.0% |
| College of Allied Health Sciences | N/A | 8.0% | 8.0% |
| College of Nursing | N/A | 3.0% | 3.0% |
| College of Dentistry | 15.0% | 15.0% | 10.0% |
| College of Pharmacy | 9.0% | 9.0% | 3.0% |
| College of Veterinary Medicine | 15.0% | 15.0% | 15.0% |

^{*} The Health Science Center applies the out-of-state fee increase to the out-of-state portion only of the fee.

In addition to increases in the maintenance fees, we are recommending increases in the following campus specific fees:

THE UNIVERSITY OF TENNESSEE CAMPUS SPECIFIC FEES FY 2006 RECOMMENDED INCREASES

| CAMPUS | FEE | CURRENT RATE | PROPOSED RATE | CHANGE | NEW REVENUES |
|-------------|--|---------------------------------|---------------------------------|-------------------------------|-----------------|
| Chattanooga | Athletics Fee | \$50/semester | \$100/semester | \$50/semester | \$ 800,000 |
| Knoxville | Facilities Fee In-State Out-of-State | \$25/semester \$150/semester | \$30/semester \$180/semester | \$5/semester \$30/semester | \$ 425,000 |
| Martin | Travel Study Fee | \$0/semester | \$5/semester | \$5/semester | \$ 40,000 |
| HSC | Student Assistance Program | \$0/year | \$18.50/year | \$18.50/year | \$ 39,600 |

The review of maintenance fees and campus specific fee increases independent of each other fails to show the actual impact on students of the total recommended student fee increase. The following table shows the impact of all the proposed increases on students (maintenance, tuition, and campus specific fees), by calculating the Effective Rate of Increase. The amounts shown on the following table are the annualized increases:

THE UNIVERSITY OF TENNESSEE STUDENT FEE EFFECTIVE RATE INCREASE FY 2006 RECOMMENDED ANNUALIZED DOLLAR INCREASE

| CAMPUS | IN-STATE | % INCREASE | OUT-OF-STATE | % INCREASE |

PROPOSED USE OF FEE REVENUE

UT CHATTANOOGA

A 9.3% increase in the maintenance fee and a \$50 per semester increase in the athletic fee are recommended for the Chattanooga campus. The other miscellaneous fees are recommended for continuation at their current amounts.

Maintenance Fees

The recommended 9.3% undergraduate and graduate maintenance fee increases generate \$2.3 million in additional revenues. In addition to supporting the 3% employee salary increase, the increased funds will be used to cover fixed cost increases; fund faculty promotions, new hires, and academic support needs; fund related scholarships and fellowships increases; and fund library acquisitions.

Campus Specific Fees

The recommended annual increase of \$50 per semester from the proposed athletics fee increase generates \$800,000. The new revenues are directed toward bringing the campus into compliance with Title IX requirements. Funding these expenditures from a dedicated athletic fee continues our effort to move athletic support to non-state revenue sources in accordance with THEC's directives. These funds will be used to add a Women's Crew program; provide

additional support to existing women's sport programs; fund trainers, tutors, and other support needs; and provide additional scholarships and fellowships.

UT KNOXVILLE

A 13% increase in the maintenance fee and an increase in the facilities fee are recommended for the Knoxville campus including the College of Law. The other miscellaneous fees are recommended for continuation at their current amounts.

Maintenance Fees

The maintenance fee increases generates \$16.4 million in additional revenues. These funds will support the campus's portion of the 3% salary increase; new faculty, academic promotions, and academic support needs; needed new staff positions; operating funds for select units; research initiatives with the Joint Institute for Computational Sciences and UT-Battelle; new scholarships for the best and brightest students and for need-based students; library acquisitions; utilities and other fixed costs; and other campus initiatives designated for funding.

Campus Specific Fees

The proposed 20% increase in the Facilities Fee provides new revenues of \$425,000 for green projects identified by a campus committee with student, faculty, and staff representation. The group has identified projects to initiate over the next five years. Because the Facilities Fee differs for in-state and out-of-state students, the proposed increase is a \$5 per semester increase for in-state students and a \$30 per semester increase for out-of-state students. You may recall a green fee was brought to the campus's attention last year by students and discussed at the Board of Trustees' June 2004 meeting. A green fee was not recommended at that time so further analysis and the identification of potential projects could occur.

<u>ACCLAIM</u>

The Appalachian Collaborative Center for Learning, Assessment, and Instruction in Mathematics (ACCLAIM) is an on-line program. The per course rate is recommended to increase by 13.0%, which is consistent with the campus's other graduate programs. A 9.7% increase in the On-line Support fee is also recommended to defray increasing administrative cost. After incorporating the two recommended adjustments, the new credit hour rate is \$340 for in-state students and \$370 for out-of-state students.

UT MARTIN

A 9.7% increase in the maintenance fee and a new Travel Study fee are recommended for the Martin campus. The other miscellaneous fees are recommended for continuation at their current amounts.

Maintenance Fees

The maintenance fee increase generates \$2.4 million in additional revenues. These funds are allocated to support the 3% state salary increase: new faculty, academic promotions, and academic support; student services and support initiatives; related increases in scholarships and fellowships; facility maintenance projects and other operating needs.

Campus Specific Fees

We also bring for your consideration a Travel Study fee recommended by the Student Government Association. The proposed fee of \$5 per semester generates \$40,000 annually to aid students in foreign or domestic travel as part of their course study. Distributed based on

recommendations from a joint student and faculty committee, these funds are focused on encouraging students to participate in learning opportunities to explore their world in an academic environment.

New College

A 9.7% increase in the maintenance fee and on-line support fee are recommended for New College. New College continues to expand course offerings with a current emphasis on growing graduate programs in Education.

The recommended per credit hour fee is \$201 for in-state undergraduate students and \$217 for out-of-state undergraduate students. Recommended graduate fees are \$311 per credit hour for in-state students and \$338 for out-of-state students.

UT SPACE INSTITUTE

A 13% increase in the maintenance fee is recommended for the Space Institute. Miscellaneous fees are recommended for continuation at their current amounts.

Maintenance Fees

The maintenance fee increase generates \$133,705. These funds will support the Space Institute's graduate students with increased funding for grants and subsidies and provide additional funds for faculty salaries.

UT HEALTH SCIENCE CENTER

Proposed maintenance fees ranging from 0% to 15% are recommended for the Health Science Center along with the establishment of a Student Assistance Program fee.

Maintenance Fees

The proposed fee increases for the university's health professional programs continue our effort to ensure fees support programmatic needs while remaining competitive in the marketplace. Because many of these programs compete nationally for students, our recommendations include a much broader comparison of institutions.

Dentistry

A 15% maintenance fee increase for in-state students and a 10% increase in tuition for out-of-state students is recommended for the College of Dentistry. The new fees keep our fees around the mid-point of the College's peer institutions in the Southeast Region. Generating an estimated \$778,000 in new revenues, these funds allow the College to hire additional faculty to help move the student/faculty ratio to a more acceptable level. It also provides funds needed to make faculty salaries more competitive with other dental schools.

<u>Medicine</u>

The proposed increase for the College of Medicine continues the effort started last year to minimize the cost to returning students. Like last year, there is no fee increase recommended for second, third, and fourth year students. A 3% increase in the maintenance fee for both in-state and out-of-state incoming students is recommended. The proposed fee increase, which provides an estimated \$76,000 in new funding, recognizes that the College's fees are in the top tier of southeastern universities.

<u>Pharmacy</u>

A 9% maintenance fee increase for in-state students and a 3% increase in tuition for out-of-state students is recommended for the College of Pharmacy. The increase generates \$497,200 in new revenues to support increases in fixed operating cost, faculty promotions and market adjustments, new part-time faculty, faculty support funds for program start-ups, research seed money, and development opportunities. The proposed increase keeps the recommended fees near the mid-point of the top 20 schools of pharmacy.

Allied Health Sciences

An 8% increase in in-state and out-of-state student fees for the College of Allied Health Sciences is recommended. This recommendation keeps the College's fees highly competitive compared with other programs in the southeast. The proposed fee recommendation provides the College an estimated \$132,400 in additional revenues for student recruitment activities, technology upgrades, research seed money, and increases in operating cost.

College of Nursing

A 3% increase in in-state and out-of-state student fees for the College of Nursing is recommended. The recommended fee increase provides approximately \$42,000 in new revenues to assist in funding inflationary cost increases for library acquisitions and utilities. Although additional revenue is needed, the College's fees are higher than desired when compared with their peer institution. The recommendation does, however, keep the College competitive within the state as the program is reinstated.

Graduate Health Sciences

Fees are recommended to remain at FY 2005 rates to remain competitive with southeastern universities.

Campus Specific Fees

We are recommended the addition of a Student Assistance Program fee of \$18.50 per year to supplement the healthcare services currently provided by the Health Science Center's University Health Services unit. The program provides students and their family members confidential and professional counseling service 24 hours per day, seven days a week to help with personal concerns and situations that can affect a student's well-being or academic performance.

UT COLLEGE OF VETERINARY MEDICINE

A 15% increase in the maintenance fee and an increase in the facilities fee as part of the Knoxville campus initiative are recommended for the College of Veterinary Medicine. The recommended fee increase is part of a multi-year initiative that began last year to make the College's fees more competitive with peer institutions and to provide much needed funds to grow the program. The other miscellaneous fees are recommended for continuation at their current amounts.

Maintenance Fees

The maintenance fee increase generates \$822,000 million in additional revenues. These funds are allocated to fund a new Pathobiology faculty position, academic promotions, increased utility costs, and debt service on a new facility.

RECOMMENDATION

Detailed student fee schedules are included in the FY 2006 Proposed Budget Document in *Section Eight, Student Fees*. We recommend approval of the proposed student fees.

THE UNIVERSITY OF TENNESSEE SYSTEM BUDGET GLOSSARY

Budget Entity - the campuses and units of The University of Tennessee System are referred to as budget entities.

Current Funds - funds available to the University for use in achieving any of its authorized institutional purposes. These funds may be either:

- a. Unrestricted funds which the University retains full control of their use, or
- b. **Restricted** funds which are externally restricted and may be used only in accordance with the purposes established by the provider

There are three different categories of current funds used by The University of Tennessee System:

- 1. **Educational and General** consists of all core functions of the University necessary to support the teaching, research, and public service missions of the University
- 2. **Auxiliary Enterprises** self-supporting enterprises which furnish services to students, faculty, and staff. Examples include housing, bookstores, food service, and UT Knoxville Men's Athletics.
- 3. **Hospital** consists of all activities associated with the operations of a hospital

Unrestricted Net Assets - These funds have been designated or reserved for specific purposes such as working capital, revolving funds, encumbrances, unexpended gifts, and reappropriations. In addition, a portion of these funds are maintained as unallocated funds at a level that falls within a certain percent range of total expenditures and transfers.

CURRENT FUND REVENUE SOURCES:

Tuition and Fees - funds collected from students for educational purposes

Appropriations - primarily funding received from the State of Tennessee to support current operations of the University. Appropriations may also be received from the federal government and from local (city and county) governments.

Grants, and Contracts - funds received from governmental (federal, state, local) or non-governmental (private organizations or individuals) entities resulting from grants or contracts entered into to furnish goods or services

Sales and Services of Educational Activities - revenues from the sale of goods or services related to educational activities. Examples include the sale of literary publications, testing services, the sale of agricultural products, and band and sports camps.

Investment Income – interest earnings derived from the investment of funds

Other Revenues - revenues not included in the above classifications. Includes gifts from private organizations or individuals, income from endowments (funds which principal must be maintained inviolate but which interest income may be expended) not dedicated to a specific expenditure, miscellaneous rentals and sales, and conference revenues.

EDUCATIONAL AND GENERAL EXPENDITURES:

I. Primary Mission

Instruction - expenditures associated with the offering of credit and non-credit courses

Research - costs associated with activities specifically organized to produce research commissioned by either external organizations or by an organizational unit within the institution

Public Service - funds expended for activities that are primarily established to provide non-instructional services beneficial to individuals and groups external to the institution

II. Supporting Functions

Academic Support - funds expended to provide support for the University's primary mission of instruction, research and public service; includes libraries, academic computing support, museums, and academic administration

Student Services - reflects expenditures which contribute to the welfare of students outside the context of the formal instruction program; includes student activities, intramural athletics, student-aid administration, admissions, and student health services

Institutional Support - costs associated with executive management, fiscal operations, personnel services, and administrative computing

Operation and Maintenance of Physical Plant - costs associated with the operation and maintenance of buildings and grounds, utilities, custodial services, and campus security

Scholarships and Fellowships - expenditures for aid to students in the form of monetary grants

III. Transfers

Mandatory - transfers from the current fund to another fund group arising from a legal binding agreement. The retirement of debt obligations for buildings is an example.

Non-mandatory - transfers from the current fund to another fund group made at the discretion of the University. An example of a non-mandatory transfer is the set aside of funds for the replacement of equipment.

IV. Natural Classifications

Cost objects by expenditure category, e.g. salaries, fringe benefits, scholarships, fellowships, utilities, supplies, other services and depreciation.
