RESTRICTED FUNDS	A-13
FY 2019-20 SALARY PLAN	A-15
UNRESTRICTED NET ASSETS	A-16
SUPPORTING BUDGET SCHEDULES	B-1
TUITION AND FEE SCHEDULES	C-1

Message from the Chief Financial Officer

The FY 2019-20 proposed operating budget allocates available funding to the university's current operations for the fiscal year beginning July 1, 2019 and ending June 30, 2020. It is the result of input from hundreds of dedicated faculty, staff, students and citizens involved in setting priorities for the university's campuses, colleges, and institutes across the state of Tennessee.

Ensuring student access and affordability is a partnership between the university and the state. During recent years, reliable state funding combined with efficiency efforts and prudent fiscal management by the university, have resulted in the lowest tuition increases in the history of the UT System. FY 2019-20 will continue the trend of modest tuition increases at or below Tennessee Higher Education Commission (THEC) recommendations.

Recurring unrestricted state funding will increase by \$21.4 million. This includes state formula funds generated by productivity gains made by UT's three "formula units" (Chattanooga, Knoxville, and Martin) and funding for a 2.0% salary pool. The state budget also includes \$10 million to support one-time investments for student safety and campus security. During a time when state funding for public higher education is uncertain in many states, Tennessee has made good on its commitment to make higher education a top priority.

The state budget also includes items supporting UT programs that are not part of UT's proposed operating budget. There is \$110.93 million in state funding for capital projects and maintenance, including funds for a new energy and environmental science building which, when complete, will be the largest capital project in the history of the UT Institute of Agriculture. FY 2019-20 state operating appropriations also include \$3 million to leverage additional federal Graduate Medical Education (GME) funds to create more residency positions in the State of Tennessee, most of which will be filled by UT Health Science Center students.

The increases in state operating funds and growth in other unrestricted revenue sources, including tuition and fees, will support \$38.3 million in new recurring unrestricted educational and general (E&G) expenditures. Most of these funds will be used for the 2.0% salary pool, institutionally funded scholarships, operating inflation, and fixed-cost increases. The remainder will be used to fund improvements and enhancements in student services and academic programs, new faculty and staff positions, faculty promotions and start ups, safety and security, strategic enrollment plans, campus improvements, and facilities and equipment.

University administration proposes a 2.0% pool to fund faculty and staff salary increases. The total cost of the salary plan is estimated at \$23.0 million: \$18.1 million will be funded from unrestricted E&G revenues (primarily state funds); \$3.6 million will be funded by restricted grants, contracts, gifts, and endowments; the remaining \$1.4 million is for employees of auxiliary enterprises, which will use fees and athletics revenues to fund the salary increases.

Revenue and expenditure data for each operating unit are provided in this budget document. Also included are detailed schedules on tuition and fees. A separate publication containing detailed supporting schedules is available in printed or electronic format.

David L. Miller

David L. Miller Chief Financial Officer

Overview

The University of Tennessee (UT) FY 2019-20 proposed budget current fund operating revenues total \$2.5 billion: \$1.5 billion in unrestricted educational and general (E&G) funds, \$680 million in restricted E&G funds and \$274 million in auxiliary funds. This is a 2.5% increase from the FY 2018-19 probable budget.

TOTAL OPERATING REVENUE
(\$ millions)

Revenue Source	2019-20	Change	
Unrestricted E&G	\$ 1,543.3	\$52.1	3.5%
Restricted E&G	679.6	(0.8)	(0.1)%
Auxiliaries	273.9	9.3	3.5%
Total	\$ 2,496.8	\$60.6	2.5%

The proposed budget for current unrestricted E&G funds and current unrestricted auxiliary funds are presented by university administration for consideration and approval by the Board of Trustees. This document provides a narrative analysis and detailed schedules of these funds. It also includes detailed schedules on proposed student tuition and fees recommended for Board approval.

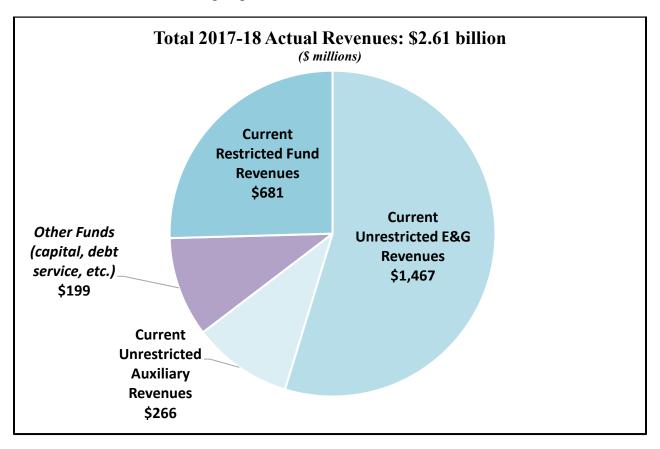

Unrestricted E&G funds support the core operations of the university, which include instruction, institutionally funded research, public service, academic support, student services, institutional support, facilities operations and maintenance, and institutionally funded scholarships and fellowships. They are funded primarily through student tuition and fees and state appropriations.

Overview – continued

Auxiliaries are self-supporting enterprises which furnish services to students, faculty, and staff such as housing, bookstores, food services and UT Knoxville (UTK) athletics. Most are funded through fee models such as housing rentals, dining plan prices, and sales of books and supplies.

This document also provides information on current restricted operating funds for information purposes. These funds represent a vital component of the university's operations, in particular in the areas of research and student financial aid, but the use of these funds is directed by the granting agencies and donors who provide the revenue. At any point in time, the university is managing hundreds of grants, contracts, gift funds, and endowments, each having its own unique contractual terms and conditions. Consequently, these funds are typically unavailable to be allocated to general university operations. The information presented for these funds provides context of how the proposed current unrestricted fund operating budget fits into the university's total financial resources for FY 2019-20 current operations.

The university also manages other funds that are unrelated to current operations. These include funds for renewal and replacement, capital construction and maintenance, debt service, and permanent endowments. Information on these funds are not presented in this document. The university's annual audited financial statements provide detailed information on the sources, uses, and net balances of these fund groups.

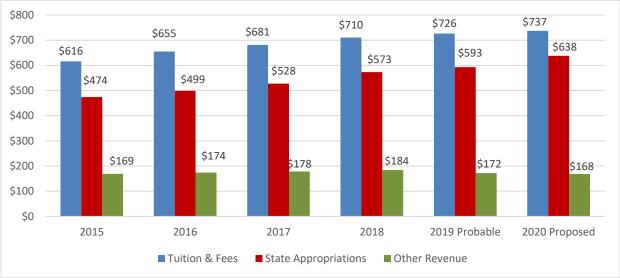

Unrestricted E&G Revenues

Unrestricted E&G revenues will increase by \$52.1 million with the largest increase coming from state appropriations (\$45.1 million) followed by tuition and fees (\$11.0 million). The \$4.1 million drop in other revenues is related to major changes in two programs which is discussed later.

	FY 2018-19	FY 2019-20		
Revenue Source	Probable	Proposed	Chang	e
Tuition & Fees	\$ 726,214,807	\$ 737,237,524	\$ 11,022,717	1.5%
State Appropriations	592,751,552	637,913,152	45,161,600	7.6%
Other Revenues	172,242,791	168,155,582	(4,087,209)	(2.4%)
Total E&G Revenues	\$ 1,491,209,150	\$ 1,543,306,258	\$ 52,097,108	3.5%

Unrestricted E&G Revenue Summary

Unrestricted E&G Revenue History

(\$ millions)

Trends in state appropriations and tuition and fees are critical to the core operations of the university. Their share of total unrestricted E&G revenues has increased slightly over recent years from a typical range of 85% to 86% over the past decade to 89.1% in FY 2019-20. Tuition and fee revenue increased its share of total funding dramatically from FY 2007-08 to FY 2011-12 as state appropriations dropped by more than \$125 million. An improving economy and commitment to funding higher education on the part of state leaders reversed this trend in recent years.

Tuition and Fee Revenues

Tuition and fee revenues are projected to grow to \$737.2 million. The primary source of tuition and fee revenues are maintenance fees, commonly referred to as in-state tuition. The terminology can cause some confusion since the maintenance fee is paid by all students, including out-of-state students. Non-resident tuition is an increment paid in addition to the maintenance fee by out-of-state students (the term "out-of-state tuition" is actually the maintenance fee plus non-resident tuition).

Program and services fees are mandatory fees paid by all students and include fees for student activities, health services, debt service, capital improvements, student counseling, and other programs. Its use is governed by the Board Policy on a Student Programs and Services Fee (BT0011). Other student fees are those that depend on a student's choice of academic programs and specific courses. Examples include differential tuition, lab fees, course fees, program fees, and seat fees. Extension enrollment fees are for non-credit personal and professional development courses. Fee revenues from auxiliary operations such as housing, food services, parking are addressed in another section of this document.

	FY 2018-19	FY 2019-20		
Fee Type	Probable	Proposed	Change	
Maintenance Fees	\$ 506,888,905	\$ 516,310,641	\$ 9,421,736	1.9 %
Non-Resident Tuition	81,508,558	78,094,412	(3,414,146)	(4.2)%
Program and Services Fees	73,660,263	75,914,946	2,254,683	3.1 %
Other Student Fees	56,414,952	59,447,794	3,032,842	5.4 %
Extension Enrollment Fees	7,742,129	7,469,731	(272,398)	(3.5) %
Total Tuition and Fees	\$ 726,214,807	\$ 737,237,524	\$ 11,022,717	1.5%

Tuition and Fee Revenues

The university's 2019-20 tuition and fee proposal is expected to generate \$15.4 million in additional revenues for recurring operations, but the budgeted tuition and fee revenue increase of \$11.0 million is considerably less. The difference can be attributed to two items. The Health Science Center expects non-resident tuition revenues to decline by approximately \$3.5 million due to a new approach to discounting. The drop will be offset by a \$3.5 million decrease in scholarship expenditures, so it is budget-neutral and does not reduce funding for operations. UT Knoxville's figures include a large non-recurring technical adjustment that will not affect funding for recurring operations. A detailed management discussion of the projected increase in tuition and fee revenues resulting from proposed tuition and fee changes and their intended uses can be found later in this document in Section C (**FY 2019-20 Proposed Tuition and Fees**).

State Appropriations

Unrestricted appropriations will increase \$45.2 million, but much of this are non-recurring technical adjustments for state-managed employee benefit programs which do not affect operations. State funding for recurring operations will increase by over \$21.4 million. This includes \$15.0 million generated by performance gains at UT's three "formula units" (UT Chattanooga, UT Knoxville, and UT Martin). These gains are calculated through the Tennessee Higher Education Commission (THEC) funding formula based on improvements in student success metrics, research, and public service. Much of these funds will be allocated to faculty and staff salary increases. UT's specialized units will receive \$6.4 million for salary increases.

	Unrestricted	Restricted	Total
FY 2018-19 Recurring Appropriations	\$ 605,469,052	\$ 16,117,727	\$ 621,586,779
FY19 Non-recurring items/adjustments:			
Governor's Opioid Initiative (HSC)		2,000,000	2,000,000
Minority Teaching Scholarships (UTK)	200,000		200,000
Fee Waivers (partial funding)	1,033,100		1,033,100
State-managed employee benefits	(13,950,600)		(13,950,600)
Total FY 2018-19 Appropriations	\$ 592,751,552	\$ 18,117,727	\$ 610,869,279
FY 2019-20 Recurring Changes:			
Formula outcome productivity gains	\$ 14,970,700		\$ 14,970,700
Specialized unit salary pools	6,429,800	128,401	6,558,201
Total Recurring Changes	\$ 21,400,500	\$ 128,401	\$ 21,528,901
FY 2019-20 Recurring Appropriations	\$ 626,869,552	\$ 16,246,128	\$ 643,115,680
FY19 Non-recurring items/adjustments:			
Student Safety/Campus Security Initiative	\$ 10,000,000		\$ 10,000,000
Fee Waivers (partial funding)	1,043,600		1,043,600
Total FY 2018-19 Appropriations	\$ 637,913,152	\$ 16,246,128	\$ 654,159,280

State Appropriations

The state is providing \$10.0 million for investments in facilities and technology to improve student safety and campus security. UT will receive \$1,043,600 to partially offset approximately \$9.5 million in tuition revenues that cannot be collected due to state-mandated discounts and waivers. Restricted appropriations are primarily used for Governor's Chairs and Centers of Excellence. The state's FY 2018-19 budget for the Governor's "Tennessee Together Opioid Initiative" included \$2.0 million in non-recurring restricted appropriations for the Health Science Center its Center of Excellence in Addiction Medicine. Additional funds for this program were not included in the state's FY 2019-20 appropriations bill.

Other Revenues

Grant and contract revenues are the portion of payments from grant and contract sponsors allocated to cover general facilities and administration costs the UT incurs to support grant and contract programs. In other words, it is funding provided to offset the overhead costs of UT's grant and contract activities, which are a major component of UT's research enterprise.

Sales and services revenues include sales from operations that generally provide services to the public (this does not include auxiliary enterprises, which typically provide services to faculty, staff, and students). Examples include medical clinics, 4-H camps, theaters, child development centers, training programs, sales of agricultural products, and sports camps.

Miscellaneous revenues include revenue sources such as interest earnings, conference revenues, federal appropriations provided to AgResarch and Extension (Smith-Lever, Hatch), local government support for the Institute for Public Service, UT's share of the fees received by UT-Battelle, Inc. for management of the Oak Ridge National Laboratory (ORNL), trademark licensing revenues, and unrestricted gifts and endowment earnings. (These are a very small portion of UT's gift and endowment revenues, which are typically restricted to specific uses.)

	FY 2018-19	FY 2019-20		
Revenue Source	Probable	Proposed	Chang	je
Grants & Contracts	43,838,757	44,239,633	400,876	0.9 %
Sales & Services	65,986,173	59,785,352	(6,200,821)	(9.4) %
Miscellaneous	62,417,861	64,130,597	1,712,736	2.7 %
Total Other Revenues	\$ 172,242,791	\$ 168,155,582	\$ (4,087,209)	(2.4)%

Other Revenues

The \$4.1 million decrease in other revenues is unusual. The Health Science Center's Family Practice in Jackson was sold, which takes approximately \$6 million of revenue out of the budget. UT Knoxville will see revenues decline by around \$3 million due to the relocation of the annual Destination Imagination Conference. In both cases the revenue declines will be offset by similar declines in expenditures, so these changes are budget neutral. When these two items are adjusted for, the revenue from remaining operations in this category will grow by \$4.9 million, or 3.0%. That rate of growth is typical.

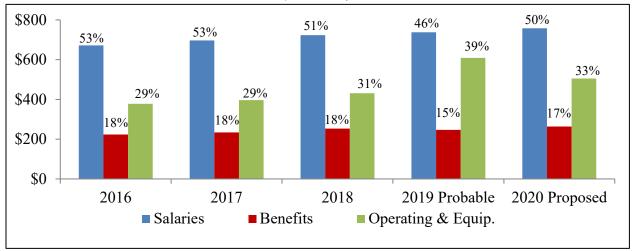

Unrestricted E&G Expenditures

Unrestricted E&G expenditures are budgeted at \$1.53 billion among the eight functional areas shown in the chart above. Instruction accounts for the lion's share. Unrestricted E&G budgets for research, scholarships and fellowships show only general funds allocated to these functions. Most of their funding comes from restricted grants, contracts, gifts, and endowments rather than state appropriations or tuition and fees. Institutional support and operation & maintenance of physical plant support all university operations, including those funded through restricted and auxiliary funds. Personnel costs account for around 67% of expenditures.

Unrestricted E&G Expenditures by Function

Unrestricted E&G Expenditures by Natural Classification

(\$ millions)

Unrestricted E&G Expenditures – continued

Total expenditure budgets indicate a \$68 million drop in expenditures. This decline can easily be misinterpreted. It does not reflect changes in ongoing plans, priorities, and operations. It is common practice to develop proposed expenditure budgets around plans for recurring operations since year-end carry forward amounts are not known during the proposed budget development process. Campuses and institutes typically determine how non-recurring carry forward funds will be allocated in September and October, after the Controller's Office completes the year-end closing process and final carry forward balances are known. These non-recurring allocations are included in the revised budget document presented to the Board at its winter or spring meeting.

	FY 2018-19	FY 2019-20		
Functional Category	Probable	Proposed	Change	
Instruction	\$ 582,497,806	\$ 583,651,298	\$ 1,153,492	0.2 %
Research	157,033,193	112,748,477	(44,284,716)	(28.2) %
Public Service	95,227,022	84,767,574	(10,459,448)	(11.0) %
Academic Support	196,657,704	185,720,011	(10,937,693)	(5.6) %
Student Services	98,507,061	98,803,604	296,543	0.3 %
Institutional Support	181,059,679	173,560,330	(7,499,349)	(4.1) %
Operation & Maint. of Plant	150,437,267	153,303,640	2,866,373	1.9 %
Scholarships and Fellowships	132,595,946	133,501,966	906,020	0.7 %
Total E&G Expenditures	\$ 1,594,015,678	\$1,526,056,900	\$ (67,958,778)	(4.3) %
Transfers	\$ (95,057,991)	\$ 17,206,019	\$ 112,264,010	118.1%
Expenditures & Transfers	\$ 1,498,957,687	\$1,543,262,919	\$ 44,305,232	3.0 %

Unrestricted E&G Expenditures by Functional Category

The FY 2018-19 probable budget includes \$114.3 million in non-recurring funds that were added mid-year after actual enrollments and the amount of funds carried over from FY 2017-18 were known. Non-recurring funds were allocated to departments for one-time projects such as facility maintenance, equipment replacements, faculty startup packages, bridge funding for research operations, lab upgrades, faculty incentives, campus improvements, energy conservation projects, and information technology infrastructure. These budgets set authorized spending levels to guide the decisions of deans, directors, and department heads. They are not projections of actual expenditures, rather a management tool that ensures that expenditures are directed to campus/institute priorities and do not exceed available levels of funding. Unused funds will be carried forward to FY 2019-20 for use on similar non-recurring projects.

An analysis of the change in recurring expenditure budgets follows. It is a better reflection of plans and priorities for core operations in FY 2019-20.

Recurring Unrestricted E&G Expenditures

These tables show only funds for recurring operations and exclude non-recurring budgets. Recurring expenditure budgets will go up by \$38.3 million (2.6%). Of this, \$18.1 million is allocated to the 2.0% salary pool for faculty and staff salary increases, which are described more fully in an upcoming section. Another \$3.1 million is allocated to other salary increases, such as commitments for faculty tenure promotions, badly needed improvements to graduate student stipends, and new positions needed to support strategic enrollment goals. Roughly \$17.1 million will be allocated to non-personnel operating expenditures such as instructional equipment and supplies, institutionally-funded student financial aid, operating inflation, and fixed-cost increases such as contract escalations.

	FY 2018-19 FY 2019-20				
Functional Area	Probable	Proposed	Change

Total Expenditures	\$ 1,480,041,517	\$1,518,321,109	\$ 38,279,592	2.6%

Recurring Unrestricted E&G Expenditures – continued

The \$974,654 increase shown for scholarships and fellowships does not reflect the full increase in student financial aid. The Health Science Center's new approach to tuitiondiscounting for many out-of-state students shifts approximately \$3.5 million in financial assistance from the expenditure side of the budget to the revenue side. (This was previously explained in page A-6.) If that factor is adjusted for, the true increase in institutionally-funded financial aid will be nearly \$4.5 million. In addition to \$132 million budgeted for institutionally-funded student aid, another \$180 million will be funded by restricted grants, contracts, gifts and endowments, bringing total 2019-20 scholarship and fellowship funding to \$312 million.

Auxiliary Enterprises

Auxiliaries are self-supporting enterprises which furnish services to students, faculty, and staff such as housing, bookstores, food services and UTK athletics. (The athletic programs at Chattanooga and Martin are included in unrestricted E&G funds.) Most are funded through fee models such as housing rentals, dining plan prices, parking permits, and sales of books and supplies. UTK athletics has a variety of funding sources including ticket sales and television revenues. Expenditures include staff salaries and benefits, general operating, and utilities; trransfers to other fund groups cover capital and debt service expenditures required for construction, maintenance, and replacement of facilities and capital equipment. Detailed budget information for each auxiliary can be found on page B-16. Discussions of fee changes and revenue allocations for housing and food services operations at each campus can be found in Section C.

Auxiliaries	FY 2018-19	FY 2019-20	Change	e
Revenues	\$ 264,341,435	\$ 273,656,320	\$ 9,314,885	3.5%
Expenditures	199,091,550	209,045,274	9,953,724	5.0 %
Transfers	65,254,360	64,611,046	(643,314)	(1.0)%
Total Expenditures and Transfers	\$ 264,345,910	\$ 273,656,320	\$ 9,310,410	3.5 %

Restricted Funds

Many of the budget tables and schedules in this document include information on restricted fund budgets. This information is not part of the proposed Board resolution. It is presented for information purposes to provide a complete picture of funds available for current operations in 2019-20.

Restricted funds are the largest revenue sources for research and financial aid and play an important role in funding the university's public service initiatives. Externally funded projects in research, public service, and instruction are vital components of the university's core mission. They support jobs directly at University of Tennessee campuses and indirectly in surrounding communities; provide partial funding for overhead; develop innovative technologies that improve healthcare, strengthen national security, and drive economic development; provide services to Tennessee citizens, manufacturers, agribusiness, and communities; support graduate education; and enrich undergraduate education through exposure to cutting edge science in the classroom and direct involvement in undergraduate research opportunities. Funding from the federal government, State of Tennessee, gifts, and endowments provide scholarships and fellowships that significantly improve student access and affordability.

Restricted funds must be used for purposes established by an external party and in accordance with the contractual terms and conditions negotiated with the sponsor of each grant and contract and the administrative provisions set by donors for each gift fund and endowment. University administration has limited discretion on the use of restricted funds once a grant, contract, or gift agreement is executed. All proposed grants, contracts, gifts, and endowments are carefully reviewed before any agreement is finalized to ensure that the proposed use of funds, terms, and conditions further the mission of the university; directly or indirectly support and enhance general operations; and conform to all university policies, generally accepted accounting standards, and state and federal regulations.

The information presented for restricted fund budgets are projections for likely revenues and expenditures during the current fiscal year. They are not revenue targets and authorized spending levels set by management. The budget for each grant, contract, gift, and endowment is unique and often applies to time periods that do not coincide with the university's fiscal year. Budgetary control of these funds is exercised by university administration at the project level. Budgets and financial activity for these funds are tracked in over 11,000 accounts in the university's official chart of accounts and subject to external audit by federal agencies and the State Comptroller.

The following page includes information on actual restricted fund expenditures for educational and general (E&G) operations in 2017-18. It shows how restricted revenues from each major funding source supported different functions of the university in 2017-18.

<u>Restricted Funds – continued</u>

2017-18 Restricted E&G Expenditures by Function and Funding Source (S-millions)

Most of the \$192.7 million spent on instruction was not traditional classroom education; nearly all of the \$132 million of private entity revenue expended for instruction was graduate medical education (GME) funding for Health Science Center interns and residents. Over half of the \$192.4 million expended on externally funded research came from the federal government; around 23% was funded by private entities. The largest funding sources for public service sponsored projects were state and local governments (51%), the federal government (25%), and private entities (16%). Most of the \$29.9 million from private entities for academic support were mission support payments to the Health Science Center generated by hospital affiliation agreements.

The largest sources of restricted scholarship and fellowship funding are the State of Tennessee, federal government, and endowments. Almost all of the \$94.4 million spent on scholarships from state and local governments was state funding from the Tennessee Student Assistance Corporation (TSAC) for the HOPE Lottery Scholarship and other state-funded financial aid. Most of the \$64.0 million in federal funding was for need-based financial aid such as Pell grants, federal work study, and Supplemental Educational Opportunity Grants. (The university also funded \$115.0 million of scholarships and fellowships from unrestricted general operating funds in 2017-18, bringing total funding scholarships and fellowship funding in 2017-18 to \$295.2 million.)

Restricted Funds – continued

The two primary uses of endowment income are financial aid and instruction. Endowments support several endowed chairs and professors, bringing exceptionally talented faculty into the classroom; this is an important supplement to unrestricted appropriations and tuition revenues allocated to faculty salaries. Gift funds are spread over all functional areas. The \$10.1 million spent in academic support provided important discretionary funds for deans and department heads in several colleges, programs, and departments. (This does not include gifts for construction, which play an important role in capital development at each campus.) Restricted state appropriations include funding for UT's Centers of Excellence and Governor's Chairs; these funds are leveraged to acquire federal and private research funding and support dozens of graduate assistants and post-docs.

FY 2019-20 Salary Plan

University administration proposes a 2.0% pool for general faculty and staff salary increases in FY 2019-20. The total cost of the salary plan is estimated to be slightly over \$23.0 million. Of this, \$18.1 million will be funded from unrestricted E&G revenues, primarily state appropriations. Approximately \$3.6 million will be funded by restricted E&G funds from grants, contracts, gifts, and endowments. The remaining \$1.4 million is for employees of auxiliary enterprises such as housing, food services, parking, bookstores, and UTK athletics; these self-supporting business units will use fees and athletics revenues to fund the salary increases.

	Unrestricted	Restricted			
Campus/Institute	E&G	E&G	Auxiliaries	Total

Estimated Salary Plan Costs

Unrestricted Current Fund Net Assets

The university maintains sufficient levels of current fund unrestricted net assets to comply with state regulations on working capital, properly account for revolving funds related to unique operations and cost allocation mechanisms, and meet contractual obligations and operational plans for the next year. University fiscal policy requires current fund operating budgets to provide year-end net asset fund balances sufficient to ensure adequate financial resources for the next fiscal year.

Working capital is set aside to provide sufficient liquidity to fund accounts receivable, inventories, and petty cash. These set asides are required by state regulations and are considered to be non-expendable during the fiscal year.

Revolving funds are set aside for unique functions. Some are operating fund balances tied to revenue-generating units that are expected to operate as independent business operations (e.g., service centers, motor pools, conference centers, medical clinics). Others are used to allocate university-wide costs or revenues among campuses and institutes in order to meet certain accounting requirements or support specialized internal cost-distribution models. Examples include funds related to unemployment compensation, unpaid wages & salaries, COBRA adjustments, and workers compensation liabilities.

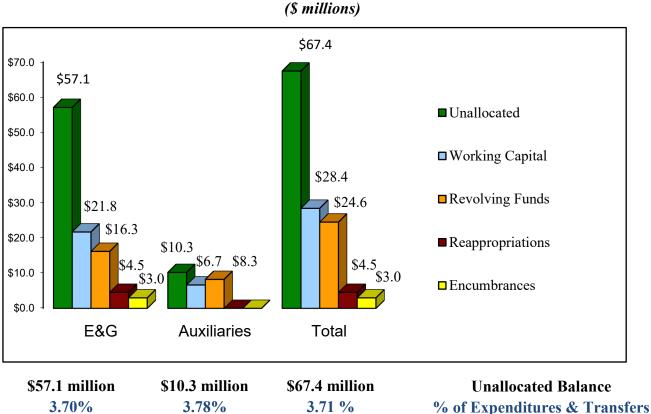

Encumbrances are funds carried over to fund commitments for purchases of goods and services that were not received before the close of the fiscal year. These funds are budgeted in the appropriate expenditure accounts as the goods and services are received. They are typically fully expended during the fiscal year.

Reappropriations are funds carried forward from the previous fiscal year for specific programs and initiatives. The most common example is a project that was planned for the previous fiscal year but delayed until the next fiscal year. Most reappropriations are fully expended during the current year, but occasionally some of these funds may be carried forward to future years if plans change or projects are completed below budget.

Unallocated net asset fund balances are needed to adjust to minor fluctuations in revenues and expenditures that occur each year and to respond to unforeseen financial developments. It is university practice to limit these fund balances to avoid building excessive levels of unallocated current funds. The target range for unrestricted educational and general (E&G) funds is 2% to 5% of total expenditures and transfers. The auxiliary fund target range is 3% to 5% of auxiliary expenditures and transfers.

Unrestricted Current Fund Net Assets – continued

The proposed budget projects a June 30, 2020 unrestricted E&G unallocated fund balance of \$57.1 million, or 3.70% of expenditures and transfers. The unrestricted auxiliary enterprises unallocated balance is \$10.3 million, 3.78% of expenditures and transfers. The total unallocated balance projected for June 30, 2020 is \$67.4 million, which is 3.71% of expenditures and transfers. (The figures below do not include renewal and replacement funds, which are unrestricted carry overs held over multiple years for long-term commitments, plans, and contingencies. These funds totaled \$554 million at the beginning of FY 2018-19.)

THE UNIVERSITY OF TENNESSEE FY 2019-20 PROPOSED TUITION AND FEES

This section presents tuition¹ and fee revenue growth expected to result from the proposed fee adjustments recommended to the Board of Trustees for FY 2019-20. It is provided to inform Board members in their consideration of the university's fee proposal, which was developed in accordance with the Board Policy on Approval of Student Fees.

The following section includes revenue projections for specific fee changes at each campus, a discussion of how the additional revenues are planned to be used, and detailed schedules of tuition and fee levels proposed for each campus. Fee changes that have been approved by the President and Chancellors that do not require Board action are presented for information purposes. This section does not address revenue changes related to factors that will occur if tuition and fee levels remain unchanged, such as enrollment growth, which is discussed in section A of this document.

Section Contents	Page
Recommendations	C-2
Proposed Uses of New Fee Revenues:	
Chattanooga	C-4
Knoxville	C-10

Health Science Center	C-20
Tuition and Fee Schedules:	
Chattanooga	C-25
Knoxville	C-30
Martin	C-38
Veterinary Medicine	C-43
Health Science Center	C-44
Fees for Disabled and Elderly Persons	C-48

¹For the purposes of this document, tuition refers to both maintenance fees and out-of-state tuition. In-state students pay only for the maintenance fee, which is commonly referred to as 'in-state tuition'. Out-of-state students pay the maintenance fee plus out-of-state tuition; the combined amount of these two fees is commonly referred to as 'out-of-state tuition'.

Recommendations

Each campus is proposing tuition and mandatory fee increases that are at or below the Tennessee Higher Education Commission (THEC) mandatory cap of 2.5%. UT Knoxville and UT Martin propose a 2.0% increase in tuition and mandatory fees assessed to in-state undergraduate students. UT Chattanooga is proposing a 2.5% increase for all returning in-state undergraduate students and a new tuition model (Soar in Four) for newly enrolled undergraduates. Campuses have proposed average increases in housing and food service rates ranging from 2.0% to 3.5%. A list of all proposed changes subject to Board approval can be found on the next page.

The professional and graduate programs at the UT Health Science Center begin earlier than programs at other UT campuses. The Board approved the UTHSC proposal at the March 2019 meeting. Most programs will charge \$200 more for tuition in fall 2019.

Information on the proposed uses of the revenue growth from each fee change can be found in the following pages.

Revenue Growth Expected From Fee Changes	Proposed for Board Approval	Approved by the President	Approved by Chancellors	Total
Knoxville	\$ 9,195,700	\$ 168,500	\$ 361,000	\$ 9,725,200

Institutional support, information technology, and infrastructure	220,587
TOTAL	\$ 5,299,339

Proposed for Approval by the Board of Trustees – UTC

UT Chattanooga is proposing changes to maintenance fees, some mandatory fees, and auxiliary enterprise fees. These changes must be approved by the President and the Board of Trustees. Below are explanations of each proposed change, including proposed uses of the resulting revenue growth.

	In-St	tate	Out-of-	Revenue	
Undergraduate Tuition (New Students;					
Soar in Four)	\$ 948	13.8%	\$ 948	4.1%	
Undergraduate Tuition (Returning					\$4,142,201
Students)	172	2.5%	172	0.7%	\$.,1 . _ , _ 0 1

Food Services (average percentage					
increase)	varies	2.5%	varies	2.5%	27,099
					\$5,256,939

- <u>Maintenance Fee (Tuition)</u> UTC is proposing a 2.5% increase to maintenance fees paid by returning undergraduate students and all graduate students. They also plan to implement a new "Soar in Four" tuition model that was approved by the Board last June. These increases are projected to increase revenue by \$4,142,201.
 - <u>Soar in Four</u> In June 2018, the UT Board of Trustees approved UTC's "Soar in Four" tuition model for implementation in fall 2019. It is similar to Board-approved models already in place at UT Martin and UT Knoxville. All new full-time undergraduate students will pay a flat rate for 15 hours per semester rather than the current rate based on 12 hours per semester. The Tennessee Higher Education Commission (THEC) endorsed the model and amended its policies to facilitate implementation. Soar in Four will create a strong incentive to complete a degree within four years, provide supplemental revenues that will be targeted to investments in student services and instructional programs proven to reduce the time to graduation, and support a culture change that makes on-time graduation the top priority for students, faculty and staff. This Soar in Four maintenance fee will be 8.7% (\$776) higher than the rate paid by returning in-state undergraduates.

Proposed for Approval by the Board of Trustees – UTC – continued

- <u>Returning Undergraduates</u> Returning students will pay 2.5% (\$172) more than they paid this year. The revenue will be used for cost increases and program enhancements in academic programs, instruction, academic support, student services and to increase funding for institutionally-funded financial aid.
- <u>Graduate Students</u> The graduate maintenance fee will increase 2.5% (\$206). The revenue growth will be allocated to graduate programs, instruction, academic support, student services, and assistantships.
- <u>Technology Fee</u> UTC proposes increasing this fee from \$250 to \$260 to generate \$123,200 for technological upgrades and operational support for the Information Technology department. This fee funds many campus wide projects and initiatives that technologically advance and sustain operational continuity for the university. The total current cost of mandatory fees for a full-time student is \$1,776 annually. In prior years, the university has foregone increasing these fees in conjunction with tuition increases, which has resulted in financial strains for the corresponding fees due to changing costs with no revenue adjustments. This requested increase is the net equivalent of a 2.5% (\$44) increase of the total mandatory fees. Of this increase, the university would like to allocate the funds to the two fees that are in need of this allocation the most. The Technology Fee has not been adjusted for four years, yet rising costs associated with technological advances, equipment replacement, campus infrastructure and overall inflation have increased each year. This allocation to the Technology Fee would amount to a \$5 per semester increase.
- <u>Athletic Fee</u> UTC proposes increasing this fee from \$480 to \$514 to provide \$343,160 for additional support of men's and women's sport programs, scholarships and fellowships. The total cost of mandatory fees for a full-time student is currently \$1,776 annually. In prior years, the university has foregone increasing these fees in conjunction with tuition increases; this has overtime resulted in financial burdens for the corresponding fees due to changing costs with no revenue adjustments. This requested increase is the net equivalent of a 2.5% (\$44) increase of the total mandatory fees. Of this increase, the university would like to allocate the funds to the two fees that are in need of this allocation the most. The Athletic Fee has not been adjusted for seven years, yet rising tuition costs, sport programming costs and overall inflation have increased each year. This allocation to the Athletic Fee would amount to a \$17 per semester increase.

Proposed for Approval by the Board of Trustees - UTC - continued

- <u>School of Nursing Differential Tuition</u> UTC proposes increasing this from \$57 to \$100 per-credit-hour to provide additional revenues of \$250,000 for current and future expenses, including supply equipment and operating upgrades, quality instruction, and enhanced learning opportunities. Nursing programs across the state are extremely competitive and often comprise of fee structures consisting of multiple programmatic fees assessed. UTC only assesses differential tuition in addition to the standard fees students pay to attend. With this increase, the School of Nursing will remain competitively priced among peer programs. (The Board will consider this fee increase as a separate action item.)</u>
- <u>Auxiliary Enterprises</u> There are a number of different prices for on-campus housing options and meal plans. Lists of all prices are included in the detailed schedules at the end of this document.
 - <u>Housing</u> The average increase in rental rates is 2.0%. It will affect both north and south campus residence hall rates. West campus housing residence hall will remain at the current rates. The increase in housing rental rates is necessary to cover increased operating expenses such as utilities, repairs and general maintenance. Being able to charge a market competitive housing rate is extremely important to sustaining a successful auxiliary function.
 - <u>Food Service</u> The university is contractually bound with Aramark to negotiate meal plan price increases on existing meal plans to offset operational increases. The average increase is 2.5%. The estimated fiscal impact is difficult to determine; however, the university will see an estimated additional \$27,099 based on guaranteed commissions per the contract. Imbedded within these operational expenses are the rising costs for food and salary for employees.

Approved by the President – UTC

The following have been approved by the President and do not require Board action.

- <u>Biology</u> (BIOL 4195) This Field Botany course requires each student to attend a one-week trip to Highlands Biological Station in Highlands, North Carolina. This proposed course fee of \$150 will provide \$1,950 to offset some costs associated with boarding expenses, use of an off-site modern lab with dissecting scopes and other requisite tools, access to teach herbarium and library, and other expendable supplies.
- <u>Biology</u> (BIOL 1140, 4370) This Urban Gardening course provides a great active learning experience by engaging students in food crop production in an urban setting. This proposed lab fee of \$25 will provide \$500 needed for supplies such as seeds, garden tools, potting soil, pots, seed germination cells and other expendables. Periodically, some maintenance and repair costs will be associated for motorized garden tractor, walk behind tillers and other garden equipment.
- <u>Social Work</u> (SOCW 5352, 5213, 5143, 4760, 4100) These specific Social Work courses require students to participate in a number of off campus events and particular research projects which include costly visuals. This proposed course fee of \$50 will provide \$6,050 to assist with the needed materials, registrations, travel and other costs associated with events and research tailored to knowledge of social welfare programs, social problems and policies, and policy creations and implications.
- <u>Extend Existing Course/Lab Fees to Additional Courses</u> Each of the following programs has course/lab fees in place for those courses that require supplemental funding for program specific specialized instruction, field-based instruction and costs for any equipment or materials needed. UT Chattanooga proposes extending these fees to the following courses:
 - o Biology (BIOL 4085, 4310) fee \$25; new revenue \$1,200.
 - Communication (COMM 4010R, 4020R) fee \$50; new revenue \$1,500.
 - Education (EDUC 4335) fee \$25; new revenue \$1,500.
 - Chemical Engineering (ENCH 3280L) fee \$25; new revenue \$1,250.
 - Electrical Engineering (ENME 3280L) fee \$25; new revenue \$1,200.
 - Construction Management (ETCM 1100, 3090) fee \$25; new revenue \$1,250.
 - o Geology (GEOL 2100L, 4530L, 4550L) fee \$25; new revenue \$1,000.

Approved by the Chancellor – UTC

The Chancellor of UT Chattanooga has approved increases to two fees that do not require further approvals.

- <u>Parking Decals</u> UTC is increasing parking decal rates by an average of 2.5%. The increase will provide revenue growth of \$23,500, which is necessary to cover increased cost for lot maintenance and general operating needs. It will also generate reserves for long-term maintenance.
- <u>Physician Assistant Seat Fee</u> A new Physician Assistant program will begin accepting students during FY 2019-20 with the first cohort beginning in Spring 2021. A \$500 seat fee will be required to secure a candidate's position in this highly competitive program. This fee will ensure the number of expected candidates within the program and also serve as a deterrent for individuals to accept admission to multiple programs and decide at the last minute to attend elsewhere.

UT Knoxville Proposed 2019-20 Tuition and Fees

Summary	New	Revenue
Proposed for Approval by the President and Board of Trustees	\$	9,195,700
Approved by the President		168,500
Approved by the Chancellor		361,000
TOTAL	\$	9,725,200
Proposed Allocations		
20 new faculty lines to support strategic enrollment plan	\$	2,641,300
Residence hall and food service operations		1,800,000
Enrollment initiatives including graduate student stipends and fee waivers		1,296,800
Faculty tenure promotions		667,600
Develop reserves for future student amenities		650,000
Professional/executive program cost increases and program enhancements		555,700
Student success initiatives pertaining to retention, graduation, and recruitment		881,800
Enhance orientation programs for new students and families		361,000
Library collection inflation, support, and expanded services		290,000
Nursing program expansion; McClung Museum programs		210,500
E-learning initiatives and infrastructure development		202,000
Materials for specific courses		168,500
TOTAL	\$	9,725,200

Proposed for Approval by the Board of Trustees – UTK

UT Knoxville is proposing changes to maintenance fees, some mandatory fees, and auxiliary enterprise fees. These changes must be approved by the President and the Board of Trustees. The net gain in revenue is projected to be \$9,195,700.

	In-St	ate	Out-of-	Revenue				
Tuition:								
Undergraduate Maintenance Fee	\$ 222	2.0%	\$ 222	0.8%				
Graduate Maintenance Fee	224	2.0%	224	0.8%	\$5,900,000			
College of Law Maintenance Fee	328	2.0%	328	0.9%				
Mandatory Fees:								
Student Program & Services Fee	26	2.6%	26	2.6%	650,000			
Library Fee	10	14.3%	10	14.3%	290,000			
Program Fees:

Auxiliary Enterprises:								
Housing (average percentage increase)	varies	3.0%	varies	3.0%	1,600,000			
Food Services (average percentage increase)	varies	2.8%	varies	2.8%	200,000			
					\$9,195,700			

Proposed for Approval by the Board of Trustees - UTK - continued

- <u>Maintenance Fee (Tuition)</u> Knoxville proposes increasing maintenance fees by 2.0%: \$222 for undergraduates, \$224 for graduate students at the Knoxville and Space Institute (UTSI) campuses, and \$328 for law students. The maintenance fee is paid by both in-state and out-of-state students. These increases represent a 2.0% increase for instate tuition; they result in increases of out-of-state tuition of 0.8% for undergraduates and graduate students and 0.9% for law students. These changes are projected to provide \$5,900,000 to cover growth in the costs of providing undergraduate and graduate curricula and to maintain the quality and effectiveness of programs in the future. It will also help support costs related to the university's five-year student enrollment goal. More specifically, the tuition revenue will be used for: e-learning initiatives and infrastructure development; student success initiatives pertaining to retention, graduation, and recruitment; and faculty hiring, promotions, and support.
- <u>Student Programs & Service Fee (SPSF)</u> Increasing this fee by \$26 will increase annual revenues by \$650,000. The revenue from this fee increase will be used for future student amenities.
- <u>Library Fee</u> The library fee provides funding for databases, electronic journals, and other collection resources. These goods are already being provided. However, due to projected annual inflation rates of 4 to 6%, existing collection resource profiles cannot be sustained without supplemental funding. The fee ensures that UT has an information resource infrastructure that adequately supports student success and retention and research excellence. The fee increase will provide \$290,000 to cover approximately half of this year's anticipated cost inflation. UT Libraries will cover the remaining cost increases through stewardship, internal reallocations, and vendor negotiations.
- <u>Law Program Fee</u> The fee increase will provide \$49,700 to support: mental wellness, academic success, community service, and recruitment initiatives; a pre-orientation program for non-traditional students; and resources and courses for bar examination preparation.
- <u>Accelerated Bachelor of Science in Nursing (ABSN) Program Fee</u> The revenue from this fee increase (\$33,000) will be used to provide students with equipment and apparel items required for the program, including UTK College of Nursing (CON) stethoscope, blood pressure cuff, pen light, UTK CON scrub top & bottom, UTK CON lab coat. It will also be used to cover software for exam and assessment preparation and scheduling. Additional costs covered by the fee include background checks, health directive requirements, annual flu shots, and TB testing.

Proposed for Approval by the Board of Trustees - UTK - continued

- <u>Industrial & Systems Engineering (ISE) Masters Online Cohort Program Fee</u> The increase will provide additional revenues of \$270,000. These courses are live-streamed one day a week in conjunction with the current off-site cohort program. Students register for the online version of the specific classes taught only for the cohort students. Fee covers university tuition, engineering fees, online fee, faculty time, other instructors, program director, student assistants, books, miscellaneous supplies and travel to visit students in off-site locations at least once per semester. (2 semesters at \$9,000 per semester)
- <u>Professional MBA Program Fee</u> The requested fee increase will provide \$78,000 to help support outreach programs, support increased activities and help market program strengths intended to benefit students. A portion of the proposed fee increase will be used to support the leadership development assessment portfolio, which is a program differentiator in the Executive MBA market. This increase will help us improve our leadership development assessments, add more contemporary leadership diagnostics and development activities, and increase the number of leadership coaches available for one-on-one mentoring. To stay competitive, another portion of the fee increase will help cover the increased initiatives in student recruiting necessary to maintain the high quality of incoming students.
- <u>Aerospace & Defense MBA Program Fee</u> The \$98,000 resulting from the requested fee increase will primarily be used to help support outreach programs, support increased activities and help market program strengths intended to benefit students. A portion of the proposed fee increase will be used to improve the curriculum (e.g., developing simulations and real-life case studies) and increasing the involvement of aerospace executives, academics, and speakers that we can bring to campus. A portion of the increase will also assist in funding additional faculty involvement in our industry immersion component, designed to provide hands-on experiential learning. Additionally, the fee increase will support enhanced student services and leadership assessment including incorporating industry leading contemporary assessments, diagnostics and development. Further, the fee increase will assist in marketing and recruiting to attract high caliber professionals to the program. Finally, the fee increase allows the program to be market competitive.

Proposed for Approval by the Board of Trustees - UTK - continued

- <u>Full-Time MBA Program Fee</u> The program fee increase will provide \$27,000 to help us improve our leadership development assessments, add more contemporary leadership diagnostics and development activities, increase the number of leadership coaches available for one-on-one mentoring, and support student programming and activities in TOMBA (Tennessee Organization of MBA's). To stay competitive, another portion of the fee increase will help cover the increased initiatives in student recruiting necessary to maintain the high quality of incoming students. This increase takes the total program fees for the 17-month program from \$15,400 to \$16,000.
- <u>Auxiliary Enterprises</u> There are a number of different prices for on-campus housing options and a variety of meal plans. Details of all proposed auxiliary fees can be found in the schedules that follow this section. Below is a summary of the proposed changes.
 - <u>Food Service</u> The proposed average rate increase for all meal plans, except for the flex plan and Vol Block, is 2.8%. The increase in rates will provide \$200,000 to help cover rising food costs, facility upgrades, and salary adjustments for employees.
 - <u>Housing</u> An average of 3% increase in room rental rates will provide \$1.6 million for the continued replacement and improvement of student housing facilities and services on campus. Knoxville is also bringing two new halls online (Magnolia and Dogwood) and is closing one hall (Morrill) as part of the west campus redevelopment.

Approved by the President – UTK

The following changes have been approved by the President and do not require Board action.

- <u>Advanced Therapeutic Recreation Programming</u> (RSM525) Camp Koinonia is an outreach program to provide outdoor camp experience for children with special needs. Course numbers RSM525 and RSM326 provide experiential learning experience for UT students in these classes. This \$150 course fee offsets the costs for lodging, food and training to the UT Students during a week-long camp at Clyde M York 4-H Center in Crossville TN. Cost of attendance is \$912 per student for the week. The fee will provide \$1,800 to cover the expense (16%) that is not paid for by the Koinonia Foundation. An RSM326 course fee was approved in 2015, but a fee was not requested for RSM525.
- <u>Scuba Diving Courses</u> (PYED201, 261, 263, 264, & 265) This \$270 fee will provide \$118,000 for certified instructors, equipment rentals, air tank fills, and a National Association of Underwater Instructors (NAUI) book package, which includes insurance coverage. This fee is less than the vendor's charge to the general public.
- <u>Snow Skiing</u> (PYED259) This \$200 fee will provide \$16,000 for instruction by certified instructors, equipment rentals, lift tickets and tram rides. This fee is less than the vendor's charge to the general public.
- <u>Snowboarding</u> (PYED262) This \$225 fee will provide \$13,500 for instruction by certified instructors, equipment rentals, lift tickets and tram rides. This fee is less than the vendor's charge to the general public.
- <u>Ice Skating</u> (PYED213 & 260) This \$75 fee will provide \$21,000 for instruction by certified instructors, equipment rentals, ice/practice time, and additional free visits outside class times. This fee is less than the vendor's charge to the general public.
- <u>Art History lab fee</u> (CNST433; cross-listed with ARTH433) Cost reductions of \$2,600 from using digital copies of films rather than paying rental fees for the films from private companies will allow UTK to reduce this fee from \$75 to \$10.

Approved by the Chancellor – UTK

The Chancellor of UT Knoxville has approved changes to three fees that do not require additional approvals. The net gain in revenue is projected to be \$361,000.

- Orientation Fee 1 Day This fee covers the cost associated with one-day orientation sessions that are held throughout the year, as well as the provision of programs that support the transition of new students and families during the first year. The fee will increase from \$50 to \$70, providing additional revenue of \$25,000 to enhance the program and to cover increasing expense areas such as orientation leader staff costs, meals, technology, and transportation. The last increase was approved for the Summer of 2015. This increase will be effective for Summer 2020.
- Orientation Fee 2 Day This fee covers the cost associated with two-day summer orientation sessions, as well as, the provision of programs that support the transition of new students and families during the first year. The fee will increase from \$200 to \$240, providing \$210,000 to enhance the program and to cover increasing expense areas such as orientation leader staff costs, housing, meals, technology, and transportation. The last increase was approved for the Summer of 2015. This increase will be effective for Summer 2020.
- <u>Orientation Fee Guest 2 Day</u> This fee covers the cost associated with the family/guest summer orientation sessions. It will increase from \$50 to \$70, generating \$126,000 to enhance the program and to cover increasing expense areas such as orientation leader staff costs, meals, technology, and transportation. The last increase was approved for the Summer of 2015. This increase will be effective for Summer 2020.

UT Martin Proposed 2019-20 Tuition and Fees

	New	Revenue
Proposed for Approval by the President and Board of Trustees	\$	1,947,564
Approved by the President		8,100
Approved by the Chancellor		33,685
TOTAL	\$	1,989,349
Proposed Allocations		
Faculty Promotions		151,000
Scholarships		102,000
Student Services and Instructional & Academic Support		933,685
Residence Hall and Food Service Operations		255,564
Unfunded portion of the 2% salary pool		182,100
General Operations, Facilities, Equipment, and Debt Service		354,800
TOTAL	\$	1,989,349

Proposed for Approval by the Board of Trustees – UTM

UT Martin is proposing changes to maintenance fees, some mandatory fees, and auxiliary enterprise fees. These changes must be approved by the President and the Board of Trustees. Explanations of each proposed change, including proposed uses of the resulting revenue growth, can be found in this section.

	In-St	ate	Out-of-	Revenue				
Undergraduate Tuition	\$ 162	2.0%	\$ 162	1.1%	\$1,350,000			
Graduate Tuition	178	2.0%	178	1.2%	\$1,550,000			
Student Programs & Services Fee	74	7.1%	74	7.1%	342,000			
Housing (average percentage increase)	varies	2.5%	varies	2.5%	246,00			
Food Services (average percentage								
increase)	varies	3.5%	varies	3.5%	9,564			

- <u>Maintenance Fee and Out-of-State Tuition</u> Martin proposes increasing maintenance fees by \$162 for undergraduates and \$178 for graduate students. This is a 2.0% tuition increase for in-state students. It increases out-of-state tuition by 1.1% for undergraduates and 1.2% for graduate students. These changes are projected to provide \$1,350,000 for scholarships, student services, instructional support, faculty promotions, contractual obligations and fixed cost increases, and the portion of the 2% salary pool which was not fully funded by state appropriations.
- <u>Student Programs & Service Fee (SPSF)</u> Martin proposes a \$74 increase to provide additional funding of \$342,000 for student activities. The revenues would be allocated to student activities council programming, the multicultural activities council, campus recreation, family weekend programming, academic student organization travel, and the student government association (SGA). This combined with the proposed 2019-20 maintenance fees would increase total tuition and mandatory fees paid by in-state undergraduate and graduate students by 2.5%
- <u>Auxiliary Enterprises</u> There are a number of different prices for on-campus housing options and a variety of meal plans. Martin is proposing average increases of 2.5% for residence hall rentals and 3.5% for dining plans. They project revenue gains of \$255,564, which will be used to cover increased costs in its housing and food service operations and improve the diversity of food offerings. Detailed schedules of all proposed fees can be found in the schedules that follow this section.

Approved by the President – UTM

The following changes have been approved by the President and do not require Board action.

- <u>PACT fee</u> Martin currently assesses a \$15 course fee for Physical Activity Scuba classes. The revenue generated by this "PACT" fee is used to pay for rental and maintenance of scuba equipment and supplies used to deliver these classes. The proposed rate for 2019-20 is \$75. This would result in an additional \$2,700 to help offset increases in rental and maintenance costs.
- <u>ANSC 121</u> Martin proposes increasing the course fee for Animal Sciences 121 from \$30 to \$300. This would provide additional funding of \$5,400 to cover the costs of maintaining an equine herd and allow additional riding courses to be offered.

Approved by the Chancellor – UTM

The Chancellor of UT Martin has approved changes to four fees that do not require additional approvals. The net gain in revenue is projected to be \$33,685.

- <u>Deferred Payment Plan Late Fee</u> The current late fee is 1.5% of the past due balance. This is changing to a flat rate of \$50 for all missed or late payments. This is expected to result in additional payments of \$18,885.
- <u>Student Account Administrative Handling Fee</u> This fee is used to support the inhouse administrative costs of collections. The rate is now 15% of the current past due balance. This will change to a flat rate of \$50 to simplify the charge for additional collection efforts before placement with a third-party collection agency. The change should increase revenue by \$4,800.
- <u>Certificate Program Fee</u> Martin will assess a fee of \$50 to provide funding of \$10,000 for new Business and Agriculture certificate programs.
- <u>Housing Deposit</u> The housing deposit will decrease from \$150 to \$50. This is a refundable deposit used to cover damages that are charged at the end of the year. The net fiscal impact is expected to be negligible.

UT Health Science Center Proposed 2019-20 Tuition and Fees

Summary	New Revenue
Previously Approved by the Board of Trustees	\$ 451,200
Approved by the President	212,150
Approved by the Chancellor	217,760
TOTAL	\$ 881,110
Proposed Allocations	
Library acquisitions	\$ 451,200
Dentistry lab equipment and supplies	376,800
Student health and malpractice insurance	225,200
Net reduction in the cost of materials/equipment for specific courses	(172,090)
TOTAL	\$ 881,110

Previously Approved by the Board of Trustees – UTHSC

The Board approved several tuition changes at the March 2019 meeting. Earlier approvals are needed since many of the UTHSC programs begin earlier than those at other UT campuses. The changes approved in March are explained below. No further action is needed for these fees.

	In-St	tate	Out-of-	State	Revenue
College of Dentistry – DDS	\$200	0.7%	\$200	0.3%	\$69,000
College of Dentistry – Transitional DDS ¹	\$200	0.3%	\$200	0.3%	0
College of Dentistry – DH (Undergraduate)	\$0	0.0%	\$(13,620)	-40.5%	(62,200)
College of Graduate Health Sciences	\$200	1.9%	\$(13,322)	-44.6%	45,800
College of Graduate Health Sciences- Pharmacology	\$200	1.2%	\$200	0.8%	3,700
College of Health Professions – Advanced Degree	\$200	1.5%	\$200	0.6%	50,700
College of Health Professions – Audiology Advanced Degree	\$200	1.1%	\$200	0.5%	34,200
College of Health Professions – Post- Professional	\$200	2.0%	\$200	0.7%	2,000
College of Medicine – MD	\$200	0.6%	\$200	0.3%	118,100
College of Medicine – PA	\$200	0.9%	\$200	0.5%	10,200
College of Pharmacy	\$200	0.9%	\$(14,806)	-35.1%	140,100
College of Nursing – Graduate	\$200	1.1%	\$200	0.5%	39,600
					\$ 451,200

¹There are currently no students enrolled in this program; there will be no new revenues at this time.

Previously Approved by the President and Board of Trustees – UTHSC – continued

- <u>Maintenance Fee</u> There is no proposed increase for Undergraduate programs. There is a general \$200 proposed maintenance fee increase this year for Graduate / Professional Programs. There will be no increase in out of state graduate / professional tuition rates beyond the \$200 noted. These increases combined with the out-of-state tuition decreases will generate a net increase of \$451,200 in new revenues which will be allocated to library acquisitions, pending the Governor's Budget proposal.
- <u>Out-of-State Tuition</u> UTHSC proposes reductions in out-of-state tuition charges for the Pharmacy, Graduate Health Sciences, and Dental Hygiene programs in order to maintain and, in some cases, grow enrollment. In all proposals, no qualified Tennessee applicant will be disadvantaged. It is anticipated that out of state enrollment will increase in order to offset the revenue losses from the reductions. Applications to Pharmacy schools are declining across the nation. However, as the ranking of the HSC College of Pharmacy continues to climb (currently ranked as #17 in the nation), enrollment remains strong and many out of state applicants who are accepted do not enroll due to high out of state tuition rates.
- <u>Online Tuition</u> The College of Nursing proposes to reclassify the Doctor of Nursing Practice (DNP) program to the online category. The program has always been primarily online with specific periods of required on-campus seminar work. The standard for similar programs nationally is to classify these programs as online. It is expected a 10% increase in enrollment will maintain the current tuition revenue for the program.

Approved by the President – UTHSC

The following changes have been approved by the President and do not require Board action.

- <u>Nursing Pre-Licensure Digital Course Materials Fee</u> The Bachelors of Science in Nursing (BSN) Program in the College of Nursing was approved to offer pre-licensure students course materials in a digital format at cost at the beginning of the semester to minimize disruption in the learning process. The fees charged vary by term depending on the cost of materials. UTHSC proposes the following changes:
 - First Term decrease the fee from \$2,020 to \$617 due to a decrease in the price of the digital course materials and how these materials are issued to the students. The resulting revenue reduction of \$182,390 is offset by these cost reductions.
 - Second Term Increase the fee from \$580 to \$617 to provide \$2,220 to cover an increase in the price of the digital course materials.
 - Third Term Decrease the fee from \$700 to \$617, reducing revenue by \$4,980, due to a decrease in the price of the digital course materials.
- <u>BSN Digital Course Materials Fee</u> The RN-to-BSN Program in the College of Nursing was approved to offer post-licensure students course materials in a digital format at cost at the beginning of the semester to minimize disruption in the learning process. The fees are \$525 in the first term, \$320 in the second term, and \$235 for the third term. The program is no longer using the digital books and these fees can be eliminated.
- <u>Doctorate of Nursing Practice (DNP) Digital Course Materials Fee</u> The DNP Program in the College of Nursing is asking for approval to offer doctoral students course materials in a digital format at cost at the beginning of the semester to minimize disruption in the learning process. This will be a new fee of \$40 to provide \$5,200 to cover these costs. Assessing it as a student fee enables students to use financial aid to cover this cost.
- <u>Clinical Nurse Leadership (CNL) Digital Course Materials Fee</u> The CNL Masters Program in the College of Nursing has been in the process of closing over the last several years and has been replaced by the DNP program. There are now no students in this program so the \$832 fee can be removed.
- <u>Nursing Kit</u> The College of Nursing provides materials needed by returning BSN prelicensure students to complete their course work. The nursing kits are being updated for next year and the cost has decreased. Dropping the fee from \$372 to \$260 will pass on \$14,560 in cost savings to students.

Approved by the President – UTHSC – continued

- <u>Nursing Digital Equipment Fee</u> The College of Nursing was approved to provide digital equipment for BSN students to take online tests and to ensure that all materials are delivered appropriately to all students in the program. Increasing the fee from \$410 to \$420 will provide \$1,300 to cover rising costs of providing digital equipment.
- <u>Physician Assistant Medical Equipment Fee</u> The Physician Assistant Program in the College of Medicine is wanting to provide the necessary materials for Physician Assistant students to complete their course work. The equipment is needed due to a change in the Physician Assistant program which requires the use of more equipment as they are working in the community. A new fee of \$476 will generate \$28,560 for equipment costs.
- <u>Dentistry Lab Utilization Fee</u> This fee is used to cover costs of supplies and other necessary equipment to help students in the College of Dentistry DDS program prepare for a dental career. The costs of the supplies and equipment have increased over the years but the fee has not been adjusted properly for these increased costs. Increasing the fee from \$2,400 to \$3,200 will generate \$376,800 to help offset the increase in costs.

Approved by the Chancellor – UTHSC

- <u>Student Health Insurance</u> The university provides a health insurance policy, which includes coverage for injury and sickness, including inpatient, outpatient, prescription and wellness provisions. The plan also includes accidental death and dismemberment coverage. Health insurance is required for all students but the student health insurance policy can be waived if the student has private health insurance. The fee increase is due to a rise in the premiums under a new contract. The fee will increase from \$2,928 to \$3,116, generating \$225,600 to cover the higher costs.
- <u>Dentistry Malpractice Insurance</u> The university provides malpractice insurance for dentistry interns, residents and students at UTHSC. The contract was rebid, reducing costs. UTHSC is passing the savings on to students by reducing the fee from \$18 to \$17.
- <u>Physician Assistant Board Review Fee</u> Physician Assistant students in the College of Medicine are required to take this review course in their last semester before they graduate as preparation for the Physician Assistant Board exam. This fee helps offset the cost of the course for UTHSC. There was a decrease in the cost of the course this year and the savings are being passed on to the students by reducing the fee from \$392 to \$268.

Total Out-of-State Tuition and Fees	\$	26,084	\$	26,334	\$	250	1.0%		
Total Out-of-State Tuition and Fees	\$	26,084	\$	26,334	\$	250			

In-state students pay only for the maintenance fee, which is commonly referred to as 'in-state tuition'. Out-of-state students pay the maintenance fee plus nonresident tuition. The combined amount of these two fees is commonly referred to as 'out-of-state tuition'.

The 'Soar in Four' rate will be assessed to newly admitted students starting in the Fall 2019 semester. All returning students who were previously admitted during prior semesters will be assessed the 'Returning Students' rate. The 'Soar in Four' initiative is a new tuition model intended to encourage students to enroll in 15 or more credit hours per semester in order to graduate in four years. Although it encourages students to enroll for more hours each term, the 'Soar in Four' rate will be assessed to students registered for 12 or more credit hours in a term. By FY 2023-24, the 'Soar in Four' rate will be applicable to all students.

Out of state students from Catoosa, Dade, Fannin, Murray, Walker and Whitfield counties in North Georgia and Jackson county in Alabama may qualify to receive a Regional Tuition Discount to their "Non-Resident Tuition". Undergraduate students receive a 75% discount credit of the "Non-Resident Tuition" to their account, and graduate students receive a 50% discount credit of the "Non-Resident Tuition" to their account.

The schedule above does not include differential fees assessed at \$58 per credit hour for College of Business, College of Engineering and Computer Science, and Doctorate programs for Physical Therapy and Occupational Therapy courses; as well as, differential fees assessed at \$100 for School of Nursing courses. The total amount paid depends on the number of courses taken.

University Fees are set by the Board of Trustees and are subject to change at any regular or called meeting of the Board.

Differential Tuition is a per-credit-hour fee assessed for a specific course or group of courses as dictated by increasing demand for educational excellence in specific areas. Once approved, future percentage increases in Maintenance Fees automatically apply to the Differential Tuition for these specific courses. Increases to Differential Tuition exceeding the percentage increases proposed for Maintenance Fees must be approved by the Board of Trustees. The total amount paid depends on the number of courses taken.

The tech fee is \$12 per-credit-hour for the first 10 hours attempted. Once semester credit hours reach 11 credits, the annualized tech fee becomes a flat fee of \$250 in FY 2018-19 and \$260 in FY 2019-20 representing an increase of 4.0%. In addition, there is an annual flat library fee of \$50.

University Fees are set by the Board of Trustees and are subject to change at any regular or called meeting of the Board.

Mandatory fees are used to support programs, services, technology, and facilities that enhance student life and academic programs.

The purpose of the Student Programs and Services Fee (SPSF) is to advance the University's educational mission by funding non-instructional services, activities, programs, and facilities that promote student satisfaction and retention or promote the intellectual, physical, emotional, social, cultural, or leadership development of students. The Board of Trustees retains ultimate control of the SPSF and sets the amount of the SPSF at each campus annually upon the recommendation of the Board's Finance and Administration Committee.

University Fees are set by the Board of Trustees and are subject to change at any regular or called meeting of the Board.

College of Architecture		109		111		2	1.8%

Mandatory fees are used to support programs, services, technology, and facilities that enhance student life and academic programs.

The purpose of the Student Programs and Services Fee (SPSF) is to advance the University's educational mission by funding non-instructional services, activities, programs, and facilities that promote student satisfaction and retention or promote the intellectual, physical, emotional, social, cultural, or leadership development of students. The Board of Trustees retains ultimate control of the SPSF and sets the amount of the SPSF at each campus annually upon the recommendation of the Board's Finance and Administration Committee.

Differential Tuition is a per-credit-hour fee assessed for a specific course or group of courses as dictated by increasing demand for educational excellence in specific areas. Once approved, future percentage increases in Maintenance Fees automatically apply to the Differential Tuition for these specific courses. Increases to Differential Tuition exceeding the percentage increases proposed for Maintenance Fees must be approved by the Board of Trustees. The total amount paid depends on the number of courses taken.

Mandatory fees are used to support programs, services, technology, and facilities that enhance student life and academic programs.

The purpose of the Student Programs and Services Fee (SPSF) is to advance the University's educational mission by funding noninstructional services, activities, programs, and facilities that promote student satisfaction and retention or promote the intellectual, physical, emotional, social, cultural, or leadership development of students. The Board of Trustees retains ultimate control of the SPSF and sets the amount of the SPSF at each campus annually upon the recommendation of the Board's Finance and Administration Committee.

DIFFERENTIAL TUITION					
Tickle College of Engineering	\$ 64	\$ 65	\$1	1.6%	

In-state students pay only for the maintenance fee, which is commonly referred to as 'in-state tuition'. Out-of-state students pay the maintenance fee plus non-resident tuition. The combined amount of these two fees is commonly referred to as 'out-of-state tuition'.

Differential Tuition is a per-credit-hour fee assessed for a specific course or group of courses as dictated by increasing demand for educational excellence in specific areas. Once approved, future percentage increases in Maintenance Fees automatically apply to the Differential Tuition for these specific courses. Increases to Differential Tuition exceeding the percentage increases proposed for Maintenance Fees must be approved by the Board of Trustees. The total amount paid depends on the number of courses taken.
