## Message from the Chief Financial Officer

---

The last three months have been a lesson in adaptability and resilience. On March 11, President Boyd announced that all in-person classes would be suspended. Faculty reengineered the delivery of instruction in a matter of days; students adapted to new ways of learning; UT issued millions of dollars in refunds and federally-funded grants to thousands of students; staff converted guest rooms and breakfast nooks into offices; maintenance crews and safety personnel continued to show up to keep campuses safe and ready to reopen; faculty and staff spent (and continue to spend) countless hours planning for an uncertain future. Everyone learned new ways to work, engage, and contribute.

It is in this context that we present the proposed operating budget for FY 2020-21. It allocates anticipated funding to the university's current operations for the fiscal year beginning July 1, 2020 and ending June 30, 2021. The budget was developed according to policies and financial controls which ensure that financial commitments are balanced within anticipated levels of available resources. In most years, we are able to project "anticipated levels of available resources" with a fair degree of accuracy, but the upcoming year presents an unusual level of uncertainty. With that in mind, the projected funding levels in this budget reflect a reasonably cautious outlook for 2020-21.

Affordability is always a concern, but never more so than now. No increases are proposed for tuition and mandatory fees. In fact, tuition and fees for some programs will be reduced. UT Knoxville proposes a temporary 10% reduction to housing and meal plan rates for the fall semester. Over \$324 million is allocated to scholarships and fellowships, an increase of \$52 million over the last four

years. We hope that these actions to manage UT's "net price" will encourage students to show up in the fall and enable them to return in the spring. Current application rates suggest that fall enrollments will remain steady.

State funding is expected to be flat due to declines in recent tax collections and uncertainty about future revenues. The state has developed a three-year plan to use spending controls and existing reserves to manage the shortfall without dramatic reductions to state programs and services.

While this budget projects steady revenues and no major changes to programs or operations, each campus and institute is discussing options to respond to various contingencies. Rarely has the gap between best-case and worst-case scenarios been so wide and hard to predict. Given the strong fundamentals in Tennessee's pre-pandemic economy, state funding could stabilize and recover soon enough to see modest growth in 2021-22. Obviously, state revenues could stagnate or drop if the pandemic persists or worsens.

Fortunately, the University of Tennessee is well positioned for this moment. UT replenished its reserves after working through the lean years of 2008 to 2012. These combined with temporary spending controls would enable UT to manage a difficult year without significant reductions to key programs, operations, or long-term capacity.

Revenue and expenditure data for each operating unit are provided in this budget document. Also included are detailed schedules on tuition and fees. A separate publication containing detailed supporting schedules is available in printed or electronic format.

Respectfully,

*David L. Miller*

# FY 2020-21 PROPOSED BUDGET

## Overview

The University of Tennessee (UT) FY 2020-21 proposed budget current fund operating revenues total \$2.5 billion: \$1.5 billion in unrestricted educational and general (E&G) funds, \$730 million in restricted E&G funds and \$263 million in auxiliary funds. This is a 1.2% decrease from the FY 2019-20 probable budget.

### TOTAL OPERATING REVENUE (\$ millions)

<b>Total</b>	<b>\$ 2,528.3</b>	<b>\$ (31.1)</b>	<b>(1.2) %</b>

The proposed budget for current unrestricted E&G funds and current unrestricted auxiliary funds is presented by university administration for consideration and approval by the Board of Trustees. This document provides a narrative analysis and detailed schedules of these funds. It also includes detailed schedules on proposed student tuition and fees recommended for Board approval.

Unrestricted E&G funds support the core operations of the university, which include instruction, institutionally funded research, public service, academic support, student services, institutional support, facilities operations and maintenance, and institutionally funded scholarships and fellowships. They are funded primarily through student tuition and fees and state appropriations.

## Overview – continued

Auxiliaries are self-supporting enterprises which furnish services to students, faculty, and staff such as housing, bookstores, food services and UT Knoxville (UTK) athletics. Most are funded through fee models such as housing rentals, dining plan prices, and sales of books and supplies.

This document also provides information on current restricted operating funds for information purposes. These funds represent a vital component of the university's operations, in particular in the areas of research and student financial aid, but the use of these funds is directed by the granting agencies and donors who provide the revenue. At any point in time, the university is managing hundreds of grants, contracts, gift funds, and endowments, each having its own unique contractual terms and conditions. Consequently, these funds are typically unavailable to be allocated to general university operations. The information presented for these funds provides context of how the proposed current unrestricted fund operating budget fits into the university's total financial resources for FY 2020-21 current operations.

The university also manages other funds that are unrelated to current operations. These include funds for renewal and replacement, capital construction and maintenance, debt service, and permanent endowments. Information on these funds are not presented in this document. The university's annual audited financial statements provide detailed information on the sources, uses, and net balances of these fund groups.

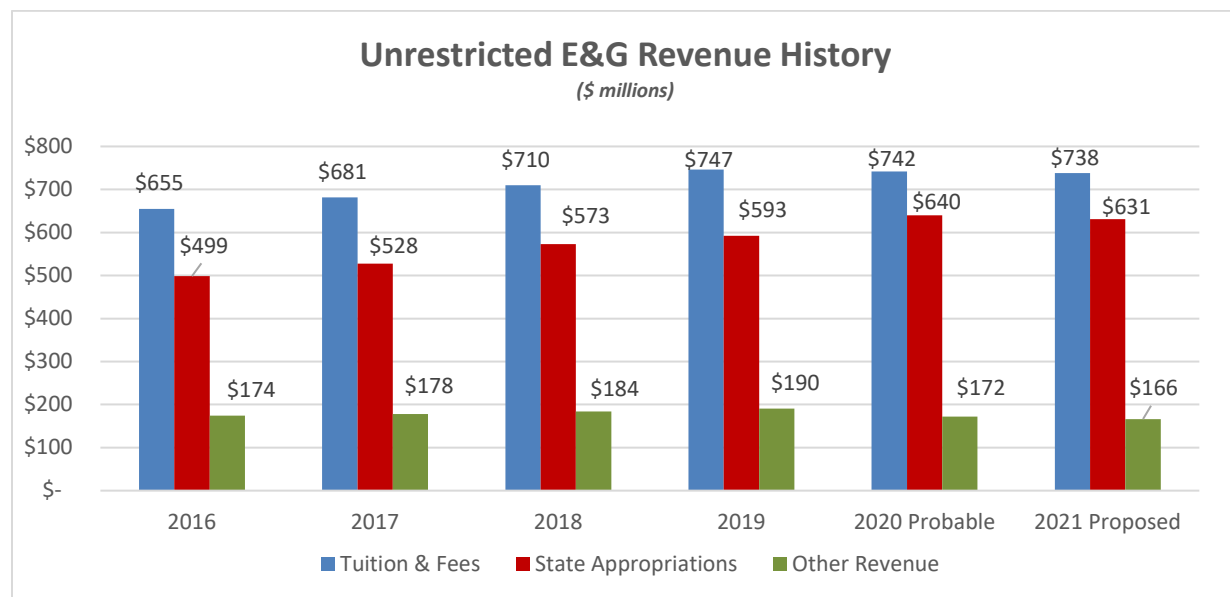

# FY 2020-21 PROPOSED BUDGET

## Unrestricted E&G Revenues

Unrestricted E&G revenues are budgeted to decrease by \$18.2 million (1.2%) with the largest decrease coming from state appropriations (\$9.5 million) followed by other revenues (\$5.7 million). Most of the decrease in state appropriations is due to \$10 million of non-recurring appropriations for student safety and campus security projects included in the FY 2019-20 budget. Recurring appropriations will actually see a small increase. Most of the \$5.7 million decrease in other revenues will be the result of lower interest earnings from the university's cash management program.

### Unrestricted E&G Revenue Summary

Revenue Source	FY 2019-20 Probable	FY 2020-21 Proposed	Change

## Tuition and Fee Revenues

Tuition and fee revenues are projected to drop slightly to \$737.8 million, a 0.5% reduction. There will be no increases to tuition and mandatory fees. UTC and UTHSC are reducing out-of-state tuition for some programs, but gains in enrollment are expected to offset the revenue effect of the price reduction. Changes to a few minor fees are expected to generate additional revenues of around \$400,000, most of which will be used to cover health insurance premium increases for UTHSC students. While enrollments are expected to remain steady, a slight drop in budgeted revenues from Other Student Fees reflects a cautious posture for the upcoming year.

### **Tuition and Fee Revenues**

<b>Fee Type</b>	<b>FY 2019-20 Probable</b>	<b>FY 2020-21 Proposed</b>	<b>Change</b>	
Maintenance Fees	\$ 518,478,242	\$ 520,698,938	\$ 2,220,696	0.4 %
Non-Resident Tuition	77,621,966	77,171,946	(450,020)	(0.6) %
Program and Services Fees	76,065,901	77,620,729	1,554,828	2.0 %
Other Student Fees	61,895,072	56,347,845	(5,547,227)	(9.0) %
Extension Enrollment Fees	7,476,626	6,007,253	(1,469,373)	(19.7) %
<b>Total Tuition and Fees</b>	<b>\$ 741,537,807</b>	<b>\$737,846,711</b>	<b>(\$3,691,096)</b>	<b>(0.5) %</b>

The primary source of tuition and fee revenues are maintenance fees, commonly referred to as in-state tuition. The terminology can cause some confusion since the maintenance fee is paid by all students, including out-of-state students. Non-resident tuition is an increment paid in addition to the maintenance fee by out-of-state students (the term “out-of-state tuition” is actually the maintenance fee plus non-resident tuition).

Program and services fees are mandatory fees paid by all students and include fees for student activities, health services, debt service, capital improvements, student counseling, and other programs. Its use is governed by the Board Policy on a Student Programs and Services Fee (BT0011). Other student fees are those that depend on a student’s choice of academic programs and specific courses. Examples include differential tuition, lab fees, course fees, program fees, and seat fees. Extension enrollment fees are for non-credit personal and professional development courses. Fee revenues from auxiliary operations such as housing, food services, parking are addressed in another section of this document.

A detailed management discussion of projected changes in tuition and fee revenues resulting from proposed tuition and fee changes and their intended uses can be found later in this document in Section C (FY 2020-21 Proposed Tuition and Fees).

## State Appropriations

Unrestricted appropriations will decrease by \$9.5 million, but most of this is due to \$10 million of one-time appropriations received in the current fiscal year to fund enhancements to student safety and campus security. State funding for recurring operations will be essentially flat. The state is providing \$2.4 million to cover the costs of a 4% health insurance premium increase, but much of this is offset by declines in formula funding for UT Martin and UT Knoxville.

### State Appropriations

	Unrestricted	Restricted	Total
<b>FY 2019-20 Appropriations</b>	<b>\$ 640,100,952</b>	<b>\$ 16,253,815</b>	<b>\$ 656,354,767</b>
<b>Less non-recurring items:</b>

Fee Waivers (partial funding)	(1,043,600)		(1,043,600)
<b>Recurring Base Appropriations</b>	<b>\$ 629,057,352</b>	<b>\$ 16,253,815</b>	<b>\$ 645,311,167</b>
<b>FY 2020-21 Recurring Changes:</b>			
Formula outcome adjustment	(1,600,100)		(1,600,100)
4% health insurance premium increase	2,140,700		2,140,700
<b>FY 2020-21 Recurring Appropriations</b>	<b>\$ 629,597,952</b>	<b>\$ 16,253,815</b>	<b>\$ 645,851,767</b>
<b>FY20 Non-recurring items:</b>			
Fee Waivers (partial funding)	1,043,600		1,043,600
<b>Total FY 2020-21 Appropriations</b>	<b>\$ 630,641,552</b>	<b>\$ 16,253,815</b>	<b>\$ 646,895,367</b>

Our longer-term expectations for state funding are cautiously optimistic. The state commissioner of Finance & Administration has developed a three-year plan to offset projected tax revenue reductions through a blend of spending controls and the judicious use of reserves. It is likely that it will take less than three years to balance recurring tax revenues with recurring financial commitments, in which case UT may see modest appropriations gains as early as FY 2021-22. If the economy does not recover as quickly as expected, UT could experience one or two additional years of flat state funding. In the worst case, it is always possible that a fiscal emergency could force a mid-year rescission of state funding, but the administration's plan appears to be strong enough to weather a longer than expected recession.

# FY 2020-21 PROPOSED BUDGET

---

## Other Revenues

UT generates additional unrestricted revenues from a variety of other sources. Most of these revenue streams are projected to remain steady during FY 2020-21, but there will be a significant decline in interest earnings from the university's cash management program. Interest earnings are used to support university-wide executive units and shared administrative services in UT System Administration (UTSA). Examples include but are not limited to the President's office, Board of Trustee operations, academic affairs & student success, government relations & advocacy, communications & marketing, payroll, general accounting, general counsel, accounts payable, business intelligence, internal audit, enterprise resource planning (ERP), and capital projects. UTSA will use a combination of recurring and non-recurring reductions to offset the loss. This is partially offset by a \$2.1 million increase in revenues from UT's share of the fees received by UT-Battelle, Inc. for management of the Oak Ridge National Laboratory (ORNL). These funds are used to support a number of research and economic development initiatives, including development and operation of the UT Research Park at Cherokee Farm.

### Other Revenues

Revenue Source	FY 2019-20 Probable	FY 2020-21 Proposed	Change	
Grants & Contracts	\$ 46,481,971	\$ 45,940,594	\$ (541,377)	(1.2) %
Sales & Services	61,386,148	60,882,793	(503,355)	(0.8) %
Miscellaneous	64,195,101	58,545,292	(4,649,809)	(7.2) %
<b>Total Other Revenues</b>	<b>\$ 172,063,220</b>	<b>\$ 166,368,679</b>	<b>\$ (5,694,541)</b>	<b>(3.3) %</b>

Grant and contract revenues are the portion of payments from grant and contract sponsors allocated to cover general facilities and administration costs the UT incurs to support grant and contract programs. In other words, it is funding provided to offset the overhead costs of UT's grant and contract activities, which are a major component of UT's research enterprise.

Sales and services revenues include sales from operations that generally provide services to the public (this does not include auxiliary enterprises, which typically provide services to faculty, staff, and students). Examples include medical clinics, 4-H camps, theaters, child development centers, training programs, sales of agricultural products, and sports camps.

Miscellaneous revenues include revenue sources such as interest earnings, conference revenues, federal appropriations provided to AgResearch and Extension (Smith-Lever, Hatch), local government support for the Institute for Public Service, UT's share of the fees received by UT-Battelle, Inc. for management of the Oak Ridge National Laboratory (ORNL), trademark licensing revenues, and unrestricted gifts and endowment earnings. (These are a very small portion of UT's gift and endowment revenues, which are typically restricted to specific uses.)

## Unrestricted E&G Expenditures

Unrestricted E&G expenditures are budgeted at \$1.53 billion among the eight functional areas shown in the chart above. Instruction accounts for the lion's share. Unrestricted E&G budgets for research, scholarships and fellowships show only general funds allocated to these functions. Most of their funding comes from restricted grants, contracts, gifts, and endowments rather than state appropriations or tuition and fees. Institutional support and operation & maintenance of physical plant support all university operations, including those funded through restricted and auxiliary funds. Personnel costs account for around 67% of expenditures.

# FY 2020-21 PROPOSED BUDGET

## Unrestricted E&G Expenditures – continued

Total expenditure budgets indicate a \$105 million drop in expenditures. This decline can easily be misinterpreted. It does not reflect changes in ongoing plans, priorities, and operations. It is common practice to develop proposed expenditure budgets around plans for recurring operations since year-end carry forward amounts are not known during the proposed budget development process. Campuses and institutes typically determine how non-recurring carry forward funds will be allocated in September and October, after the Controller's Office completes the year-end closing process and final carry forward balances are known. These non-recurring allocations are included in the revised budget document presented to the Board at its winter or spring meeting.

### Unrestricted E&G Expenditures by Functional Category

The FY 2019-20 probable budget includes \$109.2 million in non-recurring funds that were added mid-year after actual enrollments and the amount of funds carried over from FY 2018-19 were known. Non-recurring funds were allocated to departments for one-time projects such as facility maintenance, equipment replacements, faculty startup packages, bridge funding for research operations, lab upgrades, faculty incentives, campus improvements, energy conservation projects, and information technology infrastructure. These budgets set authorized spending levels to guide the decisions of deans, directors, and department heads. They are not projections of actual expenditures, rather a management tool that ensures that expenditures are directed to campus/institute priorities and do not exceed available levels of funding. Unused funds will be carried forward to FY 2020-21 for use on similar non-recurring projects.

An analysis of the change in recurring expenditure budgets follows. It is a better reflection of plans and priorities for core operations in FY 2020-21.

# FY 2020-21 PROPOSED BUDGET

## Recurring Unrestricted E&G Expenditures

These tables show only funds for recurring operations and exclude non-recurring budgets. Recurring expenditure budgets have been set slightly lower than the current fiscal year, reflecting a cautious approach to taking on new financial commitments under uncertain conditions.

The largest changes are a \$12.6 million drop in Instruction offset by a \$13.2 million increase in Research, the result of a reclassification of expenditures to more accurately reflect the effort of UTK faculty (research activity was previously under reported).

The reduction in Public Service expenditure budgets reflects a cautious approach in committing financial resources by Extension. Institutional Support dropped due to a technical correction to bring staff benefits budgets in line with actual costs and recurring reductions in UTSA to partially offset a decline in interest earnings.

## Recurring Unrestricted E&G Expenditures – continued

The table below presents unrestricted expenditure budgets for recurring E&G operations by type of expenditure. While there is virtually no change in total budgeted expenditures, there are some fairly large shifts in academic salaries and operating & equipment.

Some FY 2019-20 mid-year budget adjustments misclassified academic salary budgets as operating expenditures. Most of the large increase in academic salary budgets and about two-thirds of the large decrease in operating & equipment budgets corrects for this. A small portion of the increase in academic and non-academic salary budgets will fund a number of salary adjustments typically made each year, including faculty promotions, career ladders, position reclassifications, counteroffers, and other adjustments.

The change in staff benefits expenditure budgets is the result of an increase in health insurance premium costs, which will be funded by an offsetting increase in state appropriations. Roughly one-third of the \$18 million drop in budgets for operating and equipment expenditures reflects a cautious approach to taking on new financial commitments in 2020-21.

## Auxiliary Enterprises

Auxiliaries are self-supporting enterprises which furnish services to students, faculty, and staff such as housing, bookstores, food services and UTK athletics. (The athletic programs at Chattanooga and Martin are included in unrestricted E&G funds.) Most are funded through fee models such as housing rentals, dining plan prices, parking permits, and sales of books and supplies. UTK athletics has a variety of funding sources including ticket sales and television revenues. These revenue streams fund staff salaries and benefits, general operating, and utilities; transfers to other fund groups cover capital and debt service expenditures required for construction, maintenance, and replacement of facilities and capital equipment.

Most auxiliary operations have budgeted little change for 2020-21. UTK has reduced athletic revenue budgets from ticket sales by \$10 million due to uncertainty about attendance over the next several months. UTK is also temporarily reducing housing and meal plan rates by 10% for the Fall semester. This is expected to result in little change compared to current year revenues, which were depressed by refunds issued during the Spring 2020 semester.

## **Restricted Funds**

Many of the budget tables and schedules in this document include information on restricted fund budgets. This information is not part of the proposed Board resolution. It is presented for information purposes to provide a complete picture of funds available for current operations in 2020-21.

Restricted funds are the largest revenue sources for research and financial aid and play an important role in funding the university's public service initiatives. Externally funded projects in research, public service, and instruction are vital components of the university's core mission. They support jobs directly at University of Tennessee campuses and indirectly in surrounding communities; provide partial funding for overhead; develop innovative technologies that improve healthcare, strengthen national security, and drive economic development; provide services to Tennessee citizens, manufacturers, agribusiness, and communities; support graduate education; and enrich undergraduate education through exposure to cutting edge science in the classroom and direct involvement in undergraduate research opportunities. Funding from the federal government, State of Tennessee, gifts, and endowments provide scholarships and fellowships that significantly improve student access and affordability.

Restricted funds must be used for purposes established by an external party and in accordance with the contractual terms and conditions negotiated with the sponsor of each grant and contract and the administrative provisions set by donors for each gift fund and endowment. University administration has limited discretion on the use of restricted funds once a grant, contract, or gift agreement is executed. All proposed grants, contracts, gifts, and endowments are carefully reviewed before any agreement is finalized to ensure that the proposed use of funds, terms, and conditions further the mission of the university; directly or indirectly support and enhance general operations; and conform to all university policies, generally accepted accounting standards, and state and federal regulations.

The information presented for restricted fund budgets are projections for likely revenues and expenditures during the current fiscal year. They are not revenue targets and authorized spending levels set by management. The budget for each grant, contract, gift, and endowment is unique and often applies to time periods that do not coincide with the university's fiscal year. Budgetary control of these funds is exercised by university administration at the project level. Budgets and financial activity for these funds are tracked in over 11,000 accounts in the university's official chart of accounts and subject to external audit by federal agencies and the State Comptroller.

The following page includes information on actual restricted fund expenditures in 2018-19. It shows how restricted revenues from each major funding source supported different functions of the university in 2018-19.

Most of the \$202.7 million spent on instruction was not traditional classroom education; nearly all of the \$141.5 million of private entity revenue expended for instruction was graduate medical education (GME) funding for Health Science Center interns and residents. Over half of the \$199 million expended on externally funded research came from the federal government; around 21% was funded by private entities. The largest funding sources for public service sponsored projects were state and local governments (53%), the federal government (24%), and private entities (11%). Most of the \$32.4 million from private entities for academic support were mission support payments to the Health Science Center generated by hospital affiliation agreements.

The largest sources of restricted scholarship and fellowship funding are the State of Tennessee, federal government, and endowments. Almost all of the \$96.4 million spent on scholarships from state and local governments was state funding from the Tennessee Student Assistance Corporation (TSAC) for the HOPE Lottery Scholarship and other state-funded financial aid. Most of the \$63.6 million in federal funding was for need-based financial aid such as Pell grants, federal work study, and Supplemental Educational Opportunity Grants. (The university also funded \$125.0 million of scholarships and fellowships from unrestricted general operating funds, bringing total funding scholarships and fellowship funding in 2018-19 to \$306.7 million.)

## **Restricted Funds – continued**

The two primary uses of endowment income are financial aid and instruction. Endowments support several endowed chairs and professors, bringing exceptionally talented faculty into the classroom; this is an important supplement to unrestricted appropriations and tuition revenues allocated to faculty salaries. Gift funds are spread over all functional areas. The \$10 million spent in academic support provided important discretionary funds for deans and department heads in several colleges, programs, and departments. (This does not include gifts for construction, which play an important role in capital development at each campus.) Restricted state appropriations include funding for UT's Centers of Excellence and Governor's Chairs; these funds are leveraged to acquire federal and private research funding and support dozens of graduate assistants and post-docs.

## **Unrestricted Current Fund Net Assets**

The university maintains sufficient levels of current fund unrestricted net assets to comply with state regulations on working capital, properly account for revolving funds related to unique operations and cost allocation mechanisms, and meet contractual obligations and operational plans for the next year. University fiscal policy requires current fund operating budgets to provide year-end net asset fund balances sufficient to ensure adequate financial resources for the next fiscal year.

**Working capital** is set aside to provide sufficient liquidity to fund accounts receivable, inventories, and petty cash. These set asides are required by state regulations and are considered to be non-expendable during the fiscal year.

**Revolving funds** are set aside for unique functions. Some are operating fund balances tied to revenue-generating units that are expected to operate as independent business operations (e.g., service centers, motor pools, conference centers, medical clinics). Others are used to allocate university-wide costs or revenues among campuses and institutes in order to meet certain accounting requirements or support specialized internal cost-distribution models. Examples include funds related to unemployment compensation, unpaid wages & salaries, COBRA adjustments, and workers compensation liabilities.

**Encumbrances** are funds carried over to fund commitments for purchases of goods and services that were not received before the close of the fiscal year. These funds are budgeted in the appropriate expenditure accounts as the goods and services are received. They are typically fully expended during the fiscal year.

**Reappropriations** are funds carried forward from the previous fiscal year for specific programs and initiatives. The most common example is a project that was planned for the previous fiscal year but delayed until the next fiscal year. Most reappropriations are fully expended during the current year, but occasionally some of these funds may be carried forward to future years if plans change or projects are completed below budget.

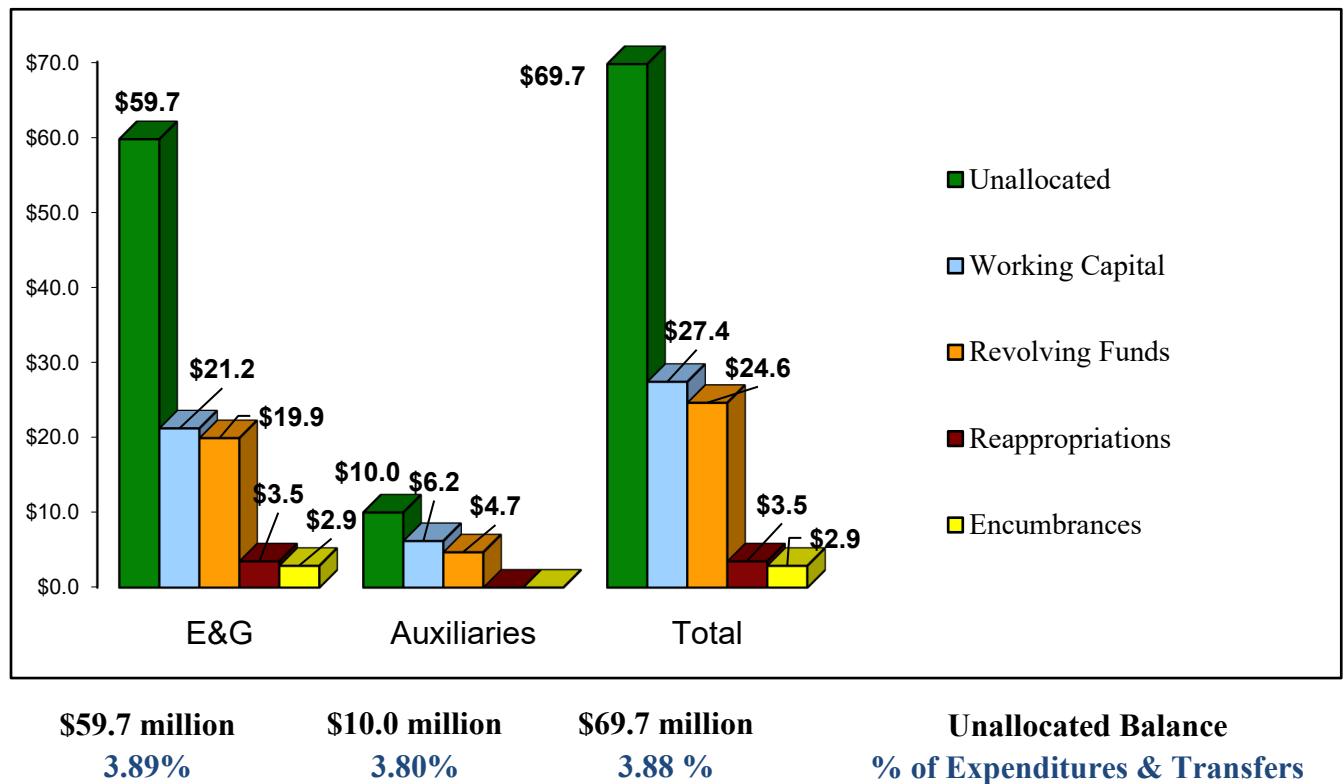

**Unallocated** net asset fund balances are needed to adjust to minor fluctuations in revenues and expenditures that occur each year and to respond to unforeseen financial developments. It is university practice to limit these fund balances to avoid building excessive levels of unallocated current funds. The target range for unrestricted educational and general (E&G) funds is 2% to 5% of total expenditures and transfers. The auxiliary fund target range is 3% to 5% of auxiliary expenditures and transfers.

# FY 2020-21 PROPOSED BUDGET

## Unrestricted Current Fund Net Assets – continued

The proposed budget projects a June 30, 2021 unrestricted E&G unallocated fund balance of \$59.7 million, or 3.89% of expenditures and transfers. The unrestricted auxiliary enterprises unallocated balance is \$10.0 million, 3.80% of expenditures and transfers. The total unallocated balance projected for June 30, 2020 is \$69.7 million, which is 3.88% of expenditures and transfers. (The figures below do not include renewal and replacement funds, which are unrestricted carry overs held over multiple years for long-term commitments, plans, and contingencies. These funds totaled \$580 million at the beginning of FY 2019-20.)

## THE UNIVERSITY OF TENNESSEE FY 2020-21 PROPOSED TUITION AND FEES

This section presents tuition<sup>1</sup> and fee revenue changes expected to result from the proposed fee adjustments recommended to the Board of Trustees for FY 2020-21. It is provided to inform Board members in their consideration of the university's fee proposal, which was developed in accordance with the Board Policy on Approval of Student Fees.

The following section includes revenue projections for specific fee changes at each campus, a discussion of how the additional revenues are planned to be used, and detailed schedules of tuition and fee levels proposed for each campus. Fee changes that have been approved by the President and Chancellors that do not require Board action are presented for information purposes. This section does not address revenue changes related to factors that will occur if tuition and fee levels remain unchanged, such as enrollment growth, which is discussed in section A of this document.

<sup>1</sup>For the purposes of this document, tuition refers to both maintenance fees and out-of-state tuition. In-state students pay only for the maintenance fee, which is commonly referred to as 'in-state tuition'. Out-of-state students pay the maintenance fee plus out-of-state tuition; the combined amount of these two fees is commonly referred to as 'out-of-state tuition'.

## Recommended Changes

No increases are recommended for tuition and mandatory fees. Tuition decreases for some programs at UT Chattanooga and the UT Health Science Center were previously approved by the Board and are reflected in the following materials. UT Knoxville is recommending temporary reductions to housing and meal plan rates due to the compressed schedule for the Fall 2020 term; these are the only changes recommended for Board consideration at the June 2020 meeting. This section also includes information on fee changes approved by the President and Chancellors that do not require Board approval.

## UT Chattanooga Proposed 2020-21 Tuition and Fees

Summary	New Revenue
Approved by the Chancellor	\$ 6,500
<b>Proposed Allocations</b>	
Operating expenses for international student orientation	\$ 5,000
Physical therapy program	1,500
<b>TOTAL</b>	<b>\$ 6,500</b>

### Previously Approved by the Board of Trustees

The only changes subject to Board approval were previously approved by the Board in June 2019. Beginning in Fall 2020, Chattanooga will assess a lower rate of out-of-state tuition to students from border states and South Carolina. Tuition and mandatory fees for this group will drop from \$25,774 to \$17,720. The projected increase in enrollments is expected to make this change revenue-neutral. The June 2019 Board action also included an adjustment to the regional discount that was already in place for students from a few nearby counties in Georgia and Alabama. Dropping the discount from \$12,086 to \$4,032 keeps net tuition and fees, inclusive of the discount, steady at \$13,688 for these students.

### Approved by the Chancellor

- Physical Therapy Seat Fee – The Physical Therapy seat fee will be increased from \$500 to \$1,000 to secure a candidate's position in this highly competitive program. The fee helps gauge the number of expected candidates enrolling in the program and also serve as a deterrent for individuals to accept admission to multiple programs and decide at the last minute to attend elsewhere. With recent changes made within the centralized application service, which manages the student early decision process, this increase will provide manageable expectations and binding commitments while remaining competitive within peer programs. While not intended to generate new revenues, it is expected to result in a revenue gain of around \$1,500.
- International Orientation Fee – A new orientation fee of \$100 will be assessed before each semester for all new international students that will provide revenue growth of an estimated \$5,000. These resources will be used to partially cover orientation operating expenses in order to provide participant meals, materials, transportation and event activities.

## **UT Knoxville Proposed 2020-21 Tuition and Fees**

### **Proposed for Board Approval**

UT Knoxville is proposing no changes to tuition and fees other than a temporary reduction to Fall 2020 housing and meal plan rates to adjust for the compressed schedule of the Fall term. Rates will return to current levels during the Spring 2021 term, if the campus is able to resume a normal calendar. This is expected to result in little change in revenues compared to the current year, which were depressed by the refunds issued during the Spring 2020 semester.

- Housing – Rates for Fall 2020 will be set 10% lower than current rates. This will result in a 5% net reduction over the full academic year of 2020-21.
- Meal Plans – Base rates for Fall 2020 will be set 10% lower than current rates. The reduction does not apply to block meal plans or dining dollars. Block meal plans are tied to the number of meals provided rather than the length of a semester. Dining dollars are a fixed dollar amount that can be purchased and added to a meal or block plan. Rate adjustments in the Fall term will result in net price reductions ranging from 3.3% to 4.3% over the full academic year of 2020-21.

Rates for all UTK housing units and meal plans can be found on pages C-19 and C-20.

## UT Martin Proposed 2020-21 Tuition and Fees

	New Revenue
Approved by the Chancellor	\$ 14,100
<b>Proposed Allocations</b>	
Summer Orientation Program	14,100

### Approved by the President

- Siena Transient Student Fee – UTM-in-Siena is a unique three-month program where students earn a semester's worth of credits while living in the medieval city of Siena, Italy. Courses in a variety of subjects are offered in English by faculty from UTM, the Dante Alighieri Society of Siena, and the University of Siena Martin. The program is being marketed to students from other universities who wish to attend and receive academic credit from UT Martin without pursuing a UT Martin degree. These students will be assessed a \$7,100 program fee. The revenue generated by this fee, approximately \$35,500 per year beginning in FY 2021-22, will cover program costs for these students.

### Approved by the Chancellor

- Siena Special Admit Fee – A fee of \$11,900 will be assessed to non-UT Martin students who attend UTM-in-Siena as “special admit” students. These students attend the program under a Memorandum of Understanding between UT Martin and their home institutions. They will not receive academic credit from UT Martin. The revenue generated by this fee, approximately \$119,000 per year beginning in FY 2021-22, will cover program costs for these students.
- Summer Orientation (SOAR) Program Fee – This fee is assessed to students and guests who attend summer orientation. The fee charged to guests will increase from \$20 to \$25 while the fee charged to students will increase from \$45 to \$55. This will generate additional revenues of \$14,100 which is needed to cover increased costs of materials used in orientation events.

## UT Health Science Center Proposed 2020-21 Tuition and Fees

Summary	New Revenue
Approved by the Chancellor	379,200
Proposed Allocations	
Student health insurance premium increase	379,200

### Previously Approved by the Board of Trustees

The Board approved several tuition changes at the March 2020 meeting, which are explained below. No further action is needed for these fees changes.

	In-State		Out-of-State		Revenue
Bachelor of Medical Technology			(\$14,156)	(54.1%)	-
Masters of Cytopathology Practice	(\$3,914)	-28.3%	(\$17,396)	(54.7%)	-
Master of Clinical Lab Science			(\$13,608)	(48.6%)	-
College of Medicine – MD			(\$7,169)	(10.6%)	-

- Maintenance Fee – There is no increase for Undergraduate or Graduate programs. There is a slight decrease in the Maintenance Fee costs for the Masters of Cytopathology Practice in the College of Health Professions. This is due to declining enrollments in this program due to competition with peers. It is anticipated that this decrease in Maintenance Fees will bring in new students which will compensate for any loss of revenues due to the decrease.
- Out-of-State Tuition – UTHSC reduced out-of-state tuition for the Medicine program along with 3 programs in Health Professions to maintain and, in some cases, grow enrollment. In all proposals, no qualified Tennessee applicant will be disadvantaged. It is anticipated that out of state enrollment will increase in order to offset the revenue losses from the reductions.

### Approved by the Chancellor

- Student Health Insurance – UTHSC provides a health insurance policy, which includes coverage for injury and sickness, including inpatient, outpatient, prescription and wellness provisions. The plan also includes accidental death and dismemberment coverage. Health insurance is required for all students, but the student health insurance policy can be waived if the student has private health insurance. The fee will increase from \$3,116 to \$3,432, generating \$379,200 to cover the costs of a rise in premiums.

The 'Soar in Four' rate is assessed to students admitted as of the Fall 2019 semester and any semester after. All students who were previously admitted during prior semesters will be assessed the 'Students Admitted Prior' rate. The 'Soar in Four' initiative is a new tuition model intended to encourage students to enroll in 15 or more credit hours per semester in order to graduate in four years. Although it encourages students to enroll for more hours each term, the 'Soar in Four' rate will be assessed to students registered for 12 or more credit hours in a term. By FY 2023-24, the 'Soar in Four' rate will be applicable to all students.

Out of state students from Catoosa, Dade, Fannin, Murray, Walker and Whitfield counties in North Georgia and Jackson county in Alabama may qualify to receive a Regional Tuition Discount to their "Non-Resident Tuition". Students receive a 50% discount credit of the "Non-Resident Tuition" to their account. The amounts above are shown net of this discount.

The 'TN Bordering State' rate is a new approved 'Non-Resident Tuition' rate beginning Fall 2020. All out-of-state students from a Tennessee bordering state (Alabama, Arkansas, Georgia, Kentucky, Mississippi, Missouri, North Carolina, South Carolina or Virginia) will be assessed a new 'Non-Resident Tuition' rate of \$8,064.

The schedule above does not include differential fees assessed at \$58 per credit hour for College of Business, College of Engineering and Computer Science, and Doctorate programs for Physical Therapy and Occupational Therapy courses; as well as, differential fees assessed at \$100 for School of Nursing courses. The total amount paid depends on the number of courses taken.

**University Fees are set by the Board of Trustees and are subject to change at any regular or called meeting of the Board.**

Mandatory fees are used to support programs, services, technology, and facilities that enhance student life and academic programs.

The purpose of the Student Programs and Services Fee (SPSF) is to advance the University's educational mission by funding non-instructional services, activities, programs, and facilities that promote student satisfaction and retention or promote the intellectual, physical, emotional, social, cultural, or leadership development of students. The Board of Trustees retains ultimate control of the SPSF and sets the amount of the SPSF at each campus annually upon the recommendation of the Board's Finance and Administration Committee.

Differential Tuition is a per-credit-hour fee assessed for a specific course or group of courses as dictated by increasing demand for educational excellence in specific areas. Once approved, future percentage increases in Maintenance Fees automatically apply to the Differential Tuition for these specific courses. Increases to Differential Tuition exceeding the percentage increases proposed for Maintenance Fees must be approved by the Board of Trustees. The total amount paid depends on the number of courses taken.

University Fees are set by the Board of Trustees and are subject to change at any regular or called meeting of the Board.
